Marianne Radtke Regulatory Affairs Manager Applied Biochemist W175 N11163 Stonewood Dr. #234 Germantown, WI 53022-4799

Subject: Notification Per PR Notice 98 -10 Pooltrine EPA Registration No. 8959-26 Application Dated: March 19, 2002

Dear Ms. Marianne Radtke,

This acknowledges receipt of your notification, submitted under the provision of PR Notice 98-10, FIFRA section 3 (c) 9.

Proposed Notification

Additional front page language phrases per PR Notice 95-2.

General Comments

Based on a review of the material submitted, the following comments apply:

This notification application is acceptable, except for the following claim " May reduce the amount of chemicals required" which is an implied safety claim.

For future correspondence regarding notification application requests, please use PR Notice 98-10.

Should you have any questions or comments concerning this letter, please contact me at (703) 308-6422.

Sincerely,

Adam Heyward Product Manager (34) Regulatory Management Branch II

DIRECTIONS FOR USE:

POOLTRINE

Algeoride and Water Clarifler for Swimming Pools

- Non-forming 30% polymer algeocide
- Boonstation non-foaming algaeside

Compatible w/chlorine and other common particle pool chemicals

Date Reviewed: 422.0

litey relies the amount of chemicals require

Effective in acid or alkaline pH ranges

ACTIVE INGREDIENTS:

Poly [oxyethylene (dimethyliminio) ethylene	
(dimethyliminio) ethylene dichloride]	0%
INERT INGREDIENTS:	0%

PRODUCT NAME contains 2.67 lbs. of active ingredient per gallon and weighs 8.9 lbs. per gallon.

CAUTION

See other precautions and first aid on back panel.

Net Contents: 32 FL. OZ. (946 ML.)

It is a violation of Federal Law to use this product in a manner inconsistent with its labeling.

APPLICATION AND DOSAGE RATES:

For maximum effectiveness, pools containing a heavy growth of algae should be cleaned prior to starting the use of **POOLTRINE**. Pools having visible algae growth should be treated with 32 oz. per 10,000 gallons of pool water. Then about 24 hours later, the algae debris should be removed by standard cleaning procedures, including brushing loose algae spots, vacuuming the pool, and backwashing the filter.

For treatment of a freshly cleaned and filled pool, add initially 18 oz. per 10,000 gallons of pool water. To maintain pools free of visible algae growth, they should be treated with 6 oz. per 10,000 gallons of pool water every week after the initial treatment. Dilute **POOLTRINE** with at least nine parts water before applying. Pour required amount of **POOLTRINE** into a plastic watering can and fill with water. Maintaining constant pool circulation, sprinkle solution around the edge of the pool.

POOLTRINE is compatible with other chemicals commonly used to treat swimming pools and it is effective in both acid and alkaline pH ranges. It can be used in pools treated with chlorine chemicals, and its use may reduce the amount of these chemicals normally required.

IMPORTANT NOTE: Always apply chemicals separately. Never combine them.

PRECAUTIONARY STATEMENTS HAZARDS TO HUMANS AND DOMESTIC ANIMALS

CAUTION: POOLTRINE may cause skin damage. Harmful if swallowed. Do not get on skin, eyes or clothing.

STATEMENT OF PRACTICAL TREATMENT

FIRST AID: In case of contact, wash thoroughly. For eyes wash thoroughly and get medical attention. If swallowed, promptly drink large quantities of water. Avoid alcohol. Call a physician immediately.

ENVIRONMENTAL HAZARDS

This product is toxic to fish.

STORAGE AND DISPOSAL

Store in original container in a cool dry place. Keep container closed when not in use. Do not reuse empty container. Rinse thoroughly, wrap container and put in trash collection.
