

Each marking represents approximately 2 fl. oz.

POOLTRINE®

- Algacide and Water Clarifier for Swimming Pools
- Non-foaming 30% polymer algacide
- Economical non-foaming algacide
- Compatible w/chlorine and other commonly used pool chemicals
- May reduce the amount of chemicals required
- Effective in acid or alkaline pH ranges

ACTIVE INGREDIENTS:

Poly[oxyethylene(dimethyliminio)ethylene
(dimethyliminio)ethylene dichloride]..... 30.0%

INERT INGREDIENTS:..... 70.0%
TOTAL..... 100.0%

POOLTRINE contains 2.67 lbs. of active ingredients per gallon
and weighs 8.9 lbs. per gallon

ACCEPTED
NOV 21 2005

Under the Federal Insecticide, Fungicide, and
Rodenticide, Act as amended, for the
pesticide, registered under
EPA Reg. No. 8959-26

KEEP OUT OF REACH OF CHILDREN
CAUTION

See other precautions and first aid on back panel

Net Contents: 32 FL. OZ. (946 ml.)

DIRECTIONS FOR USE:

It is a violation of Federal Law to use this product in a manner inconsistent with its labeling.

APPLICATION AND DOSAGE RATES:

For maximum effectiveness, pool containing a heavy growth of algae should be cleaned prior to starting the use of POOLTRINE. Pools having visible algae growth should be treated with 32 oz. per 10,000 gallons of pool water. Then about 24 hours later, the algae debris should be removed by standard cleaning procedures, including brushing loose algae spots, vacuuming the pool, and backwashing the filter.

For treatment of a freshly cleaned and filled pool add initially 18 oz. per 10,000 gallons of pool water. To maintain pools free of visible algae growth, they should be treated with 6 oz. per 10,000 gallons of pool water every week after the initial treatment. Dilute POOLTRINE with at least nine parts water before applying. Pour required amount of POOLTRINE into a plastic watering can and fill with water. Maintaining constant pool circulation, sprinkle solution around the edge of the pool.

POOLTRINE is compatible with other chemicals commonly used to treat swimming pools and it is effective in both acid and alkaline pH ranges. It can be used in pools treated with chlorine chemicals, and its use may reduce the amount of these chemicals normally required.

Compatible with bromine, chlorine, salt water, ozone and minerals.

IMPORTANT NOTE: Always apply chemicals separately. Never combine them.

PRECAUTIONARY STATEMENTS

HAZARDS TO HUMANS AND DOMESTIC ANIMALS

CAUTION: POOLTRINE may cause skin damage. Harmful if swallowed. Do not get on skin, eyes or clothing. Wash thoroughly with soap and water after handling.

FIRST AID

If In Eyes: Hold eyelids open and rinse slowly with water for 15-20 minutes. Remove contact lenses if present after 5 minutes then continue rinsing eye. Call poison control center or doctor for treatment advice.

If Swallowed: Call a poison control center immediately for treatment advice. Have person sip a glass of water if able to swallow. Do not induce vomiting unless told to do so by a poison control center or a doctor. Do not give anything by mouth to an unconscious person.

If Inhaled: Move person to fresh air. If person is not breathing, call 911 or an ambulance, then give artificial respiration, preferable mouth-to-mouth if possible. Call a poison control center or doctor for further treatment advice.

If on Skin or Clothing: Take off contaminated clothing. Rinse skin immediately with plenty of water for 15-20 minutes. Call a poison control center or doctor for treatment advice. Have the product container or label with you when calling a poison control center or doctor or going for treatment. You may also contact 1-800-222-1222 for emergency medical treatment information.

ENVIRONMENTAL HAZARDS

This product is toxic to fish.

PESTICIDE STORAGE

Store in original container in a cool, dry place. Keep container closed when not in use.

CONTAINER DISPOSAL

Do not reuse empty container. Rinse thoroughly, wrap container and put in trash collection.
