Ms. Marianne Radtke
Regulatory Affairs Manager
Applied Biochemists.
W175 N11163 Stonewood Dr. #234
Germantown, WI 53022

Subject: Algaecide for Spas and Hot Tubs
EPA Registration Number 8959-27
Application Dated September 11, 2002

Dear Ms. Radtke:

The following amendment, submitted in connection with registration under the Federal Insecticide, Fungicide, and Rodenticide Act (FIFRA), as amended, is acceptable.

Proposed Amendments:

- upgrade label bullets and informational and advisory language

General Comments:

You must provide instructions for shock treatment of spas and hot tubs, and a reentry interval time after the shock treatment.

A stamped copy of the accepted labeling is enclosed. Submit three (3) copies of your final printed labeling before distributing or selling the product.

Should you have any questions or comments concerning this letter, please contact me at (703) 308-6422 or Drusilla Copeland at (703) 308-6224.

Sincerely,

Adam Heyward
Product Manager (34)

Poly [oxyethylene (dimethyliminio) ethylene (dimethyliminio) ethylene dichloride].....	6%
OTHER INGREDIENTS:.....	94%
TOTAL	100%

This product contains 0.5 lb. of active ingredient per gallon and weighs 8.4 lbs. per gallon.

KEEP OUT OF REACH OF CHILDREN
CAUTION

See other precautions and first aid on back panel.

APPLIED BIOCHEMISTS
1400 Bluegrass Lakes Parkway
Alpharetta, GA 30004

Net Contents: 32 FL. OZ. (946 mL)

WHY YOU SHOULD USE THIS PRODUCT

This product, when used regularly, will kill and control the growth of most types of algae for complete spa enjoyment. It works best when used with other Applied Biochemists spa care products. For crystal clear spa water, follow our 4 step spa care program: Step 1: Testing and adjusting spa water balance, Step 2: Regular chlorination, Step 3: Shock treat your spa at least once a week, Step 4: Add algacide regularly.

DIRECTIONS FOR USE:

It is a violation of Federal Law to use this product in a manner inconsistent with its labeling.

INITIAL TREATMENT: For visible algae growth or slimy interior surface, add 6-8 fl. oz. of this product per 500 gals. capacity. For maximum effectiveness, spas containing heavy growth of algae should be drained and cleaned prior to treatment.

MAINTENANCE: After initial treatment, to keep your spa free of algae growth, add 1-2 fl. oz. per 500 gals. capacity every 5-7 days. This product is compatible with other spa chemicals. It can be used in conjunction with chlorine or bromine chemicals and may reduce the amount of those chemicals required.

IMPORTANT NOTE: Always apply chemicals separately. Never combine them.

PRECAUTIONARY STATEMENTS

HAZARDS TO HUMANS AND DOMESTIC ANIMALS

CAUTION: Harmful if swallowed. Avoid breathing vapors. Avoid contact with skin, eyes or clothing.

FIRST AID

If in Eyes: Hold eyelids open and rinse slowly with water for 15-20 minutes. Remove contact lenses if present after 5 minutes then continue rinsing eye. Call poison control center or doctor for treatment advice.
If Swallowed: Call a poison control center immediately for treatment advice. Have person sip a glass of water if able to swallow. Do not induce vomiting unless told to do so by a poison control center or a doctor. Do not give anything by mouth to an unconscious person.
If Inhaled: Move person to fresh air. If person is not breathing call 911 or an ambulance, then give artificial respiration, preferably mouth-to-mouth if possible. Call a poison control center or doctor for further treatment advice.
If on skin or clothing: Take off contaminated clothing. Rinse skin immediately with plenty of water for 15-20 minutes. Call a poison control center or doctor for treatment advice.

Have product container or label with you when calling a poison control center or doctor, or going for treatment.

ENVIRONMENTAL HAZARDS

This product is toxic to fish.

STORAGE AND DISPOSAL

Store in original container in a cool, dry place. Keep container closed when not in use. Do not reuse empty bottle. Rinse thoroughly, wrap container and put in trash collection.
