amended, for the pesticide,
re-registered under EPA Reg. No. 8959-28

SWIMTRINE PLUS effectively and economically kills algae and prevents regrowth without requiring pool closing.

DIRECTIONS FOR USE:

It is a violation of Federal Law to use this product in a manner inconsistent with its labeling.

VISIBLE ALGAE GROWTH: 3 oz. SWIMTRINE PLUS per 10,000 gallons of pool water

PREVENTION OF ALGAE: 1.5 oz. SWIMTRINE PLUS per 10,000 gallons of pool water once every two weeks.

APPLICATION: SWIMTRINE PLUS comes concentrated. Dilute with at least nine parts of water before applying. Pour required amount of SWIMTRINE PLUS into a plastic watering can and fill with water. Maintaining continuous pool circulation, sprinkle solution around edge of pool. Apply under sunny conditions for most effective results.

To control black algae, use Applied Biochemists **BLACK ALGAETRINE** as directed on the product's label. Once control is obtained, resume regular algae static maintenance with SWIMTRINE PLUS Algaecide.

INITIAL POOL START-UP - Use Applied Biochemists RESIST (16 oz. per 10,000 gallons) to prevent scale and stain formation.

IMPORTANT NOTE: Always apply chemicals separately. Never combine them.
