

Pooltrine 60

ACTIVE INGREDIENT:

Poly(oxyethylene (dimethyliminio) ethylene-
(dimethyliminio) ethylene dichloride) 60.0%

INERT INGREDIENT 40.0%

This product contains 5.76 lb. of active ingredient per gallon and weighs 9.6 lb. per gallon.

KEEP OUT OF REACH OF CHILDREN

CAUTION

PRECAUTIONARY STATEMENTS

HAZARDS TO HUMANS AND DOMESTIC ANIMALS

CAUTION: Harmful if swallowed. Avoid breathing vapors. Avoid contact with skin, eyes, or clothing.

FIRST AID: If swallowed, drink promptly a large quantity of milk, egg whites, gelatin solution, or, if these are not available, drink large quantities of water. Avoid alcohol. Call a physician immediately.

ENVIRONMENTAL HAZARDS: This pesticide is toxic to fish. Keep out of lakes, streams, or ponds. Permits may be required for discharges containing this pesticide into lakes, streams, ponds, or public water. For guidance, contact the regional office of the Environmental Protection Agency.

DIRECTIONS FOR USE GENERAL CLASSIFICATION

It is a violation of Federal law to use this product in a manner inconsistent with its labeling.

Pooltrine 60 is used to control the growth of algae in swimming pools, exterior spas, whirlpools, and hot tubs. For maximum effectiveness pools, spas, whirlpools, and hot tubs containing heavy growth of algae should be cleaned prior to using Pooltrine 60.

For pools having just visible algae growth add an initial dose of 11 to 17 fluid ounces of Pooltrine 60 per 10,000 gallons of water and remove settled algae debris by cleaning. For treatment of a freshly cleaned and filled pool add initially 6 to 11 fluid ounces of Pooltrine 60 per 10,000 gallons of water. Subsequent additions of 2 to 4 fluid ounces of Pooltrine 60 per 10,000 gallons of water should be made every 5 to 7 days after initial treatment for maintenance.

Spas, whirlpools, or hot tubs having just visible algae growth require an initial dose of 1 to 2 fluid ounces of Pooltrine 60 per 1000 gallons of water. For treatment of a freshly cleaned and filled spa, whirlpool, or hot tub, add initially 0.6 to 1.1 fluid ounces of Pooltrine 60 per 1,000 gallons of water. Subsequent additions of 0.2 to 0.4 fluid ounces of Pooltrine 60 should be made every 5 to 7 days after initial treatment for maintenance.

Pooltrine 60 is compatible with those chemicals normally used to treat pools and spas and is effective at both acid and alkaline pH. Pooltrine 60 can be used in pools and spas treated with chlorine chemicals and may reduce the amount of those chemicals normally required. However, do not mix Pooltrine 60 with concentrated dry or liquid chlorine products.

POOLTRINE*60 kills algae and clears the water in your swimming pool without requiring pool closing and without foaming.

NO WAITING - SWIM IMMEDIATELY!

DIRECTIONS FOR USE

It is a violation of Federal Law to use this product in a manner inconsistent with its labeling.

DOSAGE RATES

Visible Algae Growth: 15 oz. POOLTRINE*60 per 10,000 gallons of pool water.

Initial Clean Water Treatment: 9 oz. POOLTRINE*60 per 10,000 gallons of pool water.

Maintenance: 3 oz. Pooltrine*60 per 10,000 gallons of pool water weekly.

APPLICATION

Pools containing heavy algae growth should be cleaned prior to using POOLTRINE*60. 24 hours after treating visible algae growth, algae debris should be removed by standard cleaning procedures. Dilute POOLTRINE*60 with at least nine parts water before applying. Pour required amount of POOLTRINE*60 into a plastic watering can and fill with water. Maintaining constant pool circulation, sprinkle solution around edge of pool. To control black algae and other resistant forms, use BLACK ALGAETRINE*.

INITIAL POOL START-UP

Use STAINTRINE* to remove and prevent scale and stain formation.

IMPORTANT NOTE: Always apply pool chemicals separately. Never combine them.

TO ESTIMATE POOL CAPACITY

Square or Rectangular Pools - L x W x D x 7.5 = Gallons

Circular or Elliptical Pools - L x W x D x 5.9 = Gallons

PRECAUTIONARY STATEMENTS HAZARDS TO HUMANS AND DOMESTIC ANIMALS

CAUTION: Harmful if swallowed. Avoid breathing vapors. Avoid contact with skin, eyes or clothing.

FIRST AID: If swallowed, drink promptly a large quantity of milk, egg whites, gelatin solution or, if these are not available, drink large quantities of water. Avoid alcohol. Call a physician immediately.

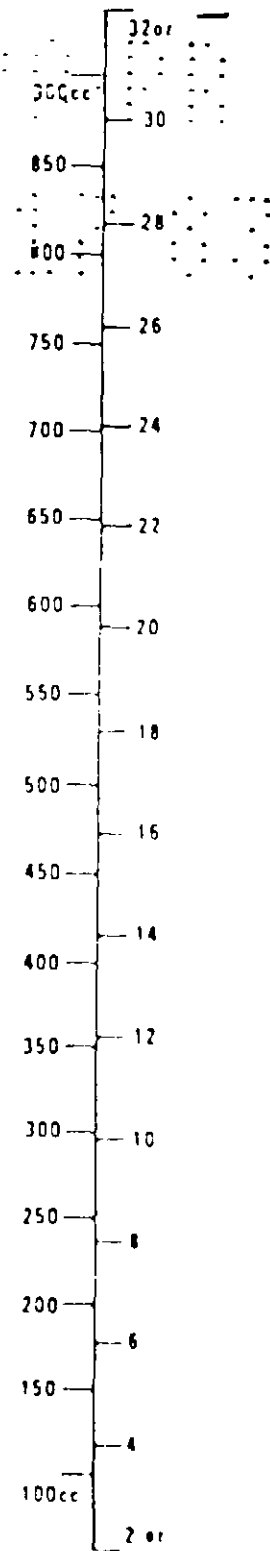

ENVIRONMENTAL HAZARDS: This product is toxic to fish. Treated effluent should not be discharged into lakes, streams, ponds or other water.

DISPOSAL: Do not reuse empty container. Wrap container and put into trash collection.
