Application Dated: April 22, 2009
Receipt Date: April 27, 2009

Dear Ms. Radtke:

The following amendment, submitted in connection with registration under the Federal Insecticide, Fungicide, and Rodenticide Act (FIFRA), as amended, is acceptable with comment:

Proposed Amendment

- Addition of optional marketing statements
- Addition of optional advisory statements
- Addition of "Responsible Care" symbol as advisory statement

Labeling Comments:

1. Under the Directions for Use Maintenance section as per PR 2000-5 Guidance for Mandatory and Advisory Labeling Statements, change the word "should" to "must".
2. Should you wish to add/retain a reference to the company's website on your label, then please be aware that the website becomes labeling under the Federal Insecticide Fungicide and Rodenticide Act and is subject to review by the Agency. If the website is false or misleading, the product would be misbranded and unlawful to sell or distribute under FIFRA section 12(a)(1)(E). 40 CFR 156.10(a)(5) list examples of statements EPA may consider false or misleading. In addition, regardless of whether a website is referenced on your product's label, claims made on the website may not substantially differ from those claims approved through the registration process. Therefore should the Agency find or if it is brought to our attention that a website contains false or misleading statements or claims substantially differing from the EPA approved registration, the website will be referred to the EPA's Office of Enforcement and Compliance Assurance.

As an alternative, you may refer consumers to the company's phone number or e:mail address.

Other Comments:
