CONTENTS
ONE PINT

FOR USE IN
WATER SOLUBLE
CUTTING AND GRINDING
COOLANTS

FOR BEST RESULTS
ADD TO FRESH
COOLANT

ACTIVE INGREDIENTS

Sodium dimethyl dithiocarbamate	27.6%
Sodium Salt of 2-mercaptobenzothiazole	2.4%

INERT INGREDIENTS 70.0%

DIRECTIONS FOR USE

W&B Inhibitor BK 2888 is added to water solubles to control bacteria and odor. The usual mixture is 1 gallon of 2888 to a thousand gallons of coolant mixture. See bulletin J-5 for additional directions for use.

CAUTION KEEP OUT OF REACH OF CHILDREN

Harmful if swallowed. May cause irritation of skin, eyes and mucous membranes. Avoid contact with eyes, skin or clothing. In case of contact, wash thoroughly with water. If eye irritation persists, get medical attention.

This product is toxic to fish — Do not contaminate water by cleaning of equipment, or disposal of wastes.

Do not reuse container. Destroy by perforating and burying in a safe place.

inhibitor	sec. J
BK 2888	

W&B Inhibitor BK 2888

application For adding to water soluble cutting and grinding coolants to prevent unpleasant odor which results from growth of bacteria.

description A non-phenolic, fluid bacteriostat - light colored and transparent - mixes instantly with water.

advantages by retarding the growth of bacteria, unpleasant odors as well as mold are controlled satisfactorily

- effective in low concentrations
- not affected by hard water
- compatible with all types of water soluble cutting and grinding coolants

mixing directions Add 0.05% to 0.10% to coolant mixtures (3 to 6 ounces 2888 to 50 gallons coolant - or 1/2 to 1 gallon to 1000 gallons of coolant mixture).

NOTE: Where copper bearing metals are machined, and skin staining occurs, the use of W&B Inhibitor 2948 is recommended.

caution: Keep Out of Reach of Children.

Harmful if swallowed. May cause irritation of skin, eyes and mucous membranes. Avoid contact with eyes, skin or clothing. In case of contact, wash thoroughly with water. If eye irritation persists, get medical attention.

This product is toxic to fish. Do not contaminate water by cleaning of equipment, or disposal of wastes.

Do not reuse container. Destroy by perforating and burying in a safe place.
