**ALGICIDE**

**"40" ACCEPTED**

NOV 29 1982

Under the Federal Insecticide, Fungicide, and Rodenticide Act, as amended, for the pesticide registered under EPA Reg. No. 9009-4

Algae Control for Swimming Pools

**Active Ingredients:**

Alkyl (C14, 58%; C16, 28%; C12, 14%)  
 dimethyl benzyl ammonium chloride: . 40.00%

Inert Ingredients . . . . . 60.00%

**Total Ingredients 100.00%**

**KEEP OUT OF REACH OF CHILDREN  
 DANGER**

(See Practical Treatment and other precautions on back panel.)

EPA Est. No. 9009-WI-1 EPA Reg. No. 9009-4

**NET CONTENTS: ONE QUART (32 oz.)**

*Packaged By:*  
**SO-WHITE CHEMICAL CO., INC.**

This Algicide is formulated to complement swimming pool water being treated with normal chlorine systems. It is especially effective against growth of algae and, being non-volatile, aids in maintaining pool clarity and sparkle. The residual effectiveness of this algicide tends to stabilize the total chemical treatment system.

This Algicide is compatible with all chemicals normally used in swimming pool maintenance; however, in its concentrated form, this chemical should not come in contact with high concentrations of chlorine. **DO NOT MIX ALGICIDE AND CHLORINE TOGETHER** before adding to the pool. These chemicals should be handled separately. This Algicide is economical, efficient and stable. In use dilution, this product is non-staining and non-corrosive to pool surfaces and equipment.

**DIRECTIONS**

It is a violation of Federal law to use this product in a manner inconsistent with its labeling.

For an initial application or when pool water is changed, use one quart per 25,000 gallons of water.

For maintenance, use one ounce per week per 5,000 gallons of water. After each rain of consequence, add one ounce per 5,000 gallons of water in addition to the above amounts.

The appropriate amount of this algicide should be added by pouring directly into the pool. More rapid distribution will be achieved by pouring a little of the specified amount into several areas of the pool. Recirculation or swimming activity will assure rapid dispersion.

**DISPOSAL:** Do not reuse empty container. Wrap container and put in trash collection.

**PRECAUTIONARY STATEMENTS  
 HAZARDS TO HUMAN AND DOMESTIC ANIMALS**

**DANGER:** Keep Out of Reach of Children. Corrosive. Causes eye damage and skin irritation. Do not get in eyes, on skin or on clothing. Wear goggles or face shield and rubber gloves when handling. Harmful or fatal if swallowed. Avoid contamination of food.

**Practical Treatment:** In case of contact, immediately flush eyes or skin with plenty of water for at least 15 minutes. For eyes, call a physician. Remove and wash contaminated clothing before use.

If swallowed, drink promptly a large quantity of milk, egg whites, gelatin solution, or if these are not available, drink large quantities of water. Avoid alcohol. Call a physician immediately.

**NOTE TO PHYSICIAN:** Probable mucosal damage may contraindicate the use of gastric lavage. Measures against circulatory shock, respiratory depression and convulsion may be needed.

**ENVIRONMENTAL HAZARDS:** This product is toxic to fish. Treated effluent should not be discharged where it will drain into lakes, streams, ponds or public water.

**TO DETERMINE POOL CAPACITY**

Rectangular Pools — Length times width times average depth (in feet) times 7.5 equal gallons.

Round and Oval Pools — Average diameter times average diameter times depth (in feet) times 5.9 equal gallons.
