CEE BEE POWER-SAN DISINFECTANT AND SANITIZER

DIRECTIONS: SANITIZATION OF GLASSWARE, SILVERWARE, DISHES AND COOKING UTENSILS. Clean with suitable detergent, rinse thoroughly with water, immerse in sanitizing rinse made with one ounce POWER SAN in four gallons of water, and air dry. Do not use a towel. This solution is effective in water containing up to 550 ppm hardness. Follow recommendations of your health department. GENERAL DISINFECTION, SANITIZATION AND DEODORIZATION IN PUBLIC ROOMS AND AT HOME. After cleaning, disinfect and deodorize walls, floors, toilet seats and external bowl surfaces, urinals, and other non-porous surfaces by thoroughly mopping or wiping with solution containing one ounce of POWER SAN per gallon of water. For sanitizing, use a solution of one ounce to four gallons of water. DISINFECTION AND DEODORIZATION IN HOSPITALS. For disinfection and deodorization of walls, floors and other non-porous surfaces, after cleaning thoroughly wet the surface by mopping or wiping with one ounce POWER SAN per gallon of water. For disinfection of porous and heavily contaminated surfaces, use two ounces of POWER SAN to one gallon of water.

DIRECTIONS: SANITIZATION OF DAIRY EQUIPMENT. Clean and rinse thoroughly. Rinse with a sanitizing solution containing one ounce POWER SAN to four gallons of water. Milk cans and other equipment should be air dried. This solution is effective in water containing up to 550 ppm hardness. Follow the recommendations of your health department. DISINFECTION AND SANITIZATION OF FABRICS. After washing, agitate in a solution containing one ounce POWER SAN to four gallons of water to disinfect clothing and linens. To render diapers and other linens bacteriostatic and to retard development of ammonia, immerse in solution containing one ounce of POWER SAN for each ten pounds of cloth. SANITIZATION OF EQUIPMENT IN FOOD PROCESSING PLANTS, INCLUDING HEAT PLANTS. Clean and rinse equipment thoroughly with water. Scrub with a solution of one ounce POWER SAN to four gallons of water. Flush equipment with a clear potable water rinse before reuse. On surfaces difficult to clean completely (such as meat cutting boards), increase strength of solution to one ounce to one gallon of water. Flush surface with clear potable water rinse before reuse.

Active Ingredients
...-alkyl (C₁₄, C₁₂, C₁₆) Dimethyl benzyl ammonium chlorides..... 10%
Ethanol..... 2.5%
Inert Ingredients
water..... 87.5%

EPA Registration No. 8973-1

Phenol Coefficients

Salmonella typhosa - 50
Staphylococcus aureus - 75

Nonflammable, nonvolatile, odorless. Do not mix with soap or anionic detergents.

This product fulfills the criteria of Appendix F of the Grade "A" Pasteurized Milk Ordinance 1965 Recommendations of the U.S. Public Health Service in waters up to 550 ppm of hardness calculated as CaCO₃ when tested by the A.O.A.C. Germicidal and Detergent Sanitizers Official Method.

DANGER

KEEP OUT OF REACH OF CHILDREN

Corrosive. Causes eye damage and skin irritation. Do not get in eyes, on skin or on clothing. Protect eyes and skin when handling. Harmful if swallowed. Avoid contamination of food. FIRST AID: In case of contact, immediately flush eyes or skin with plenty of water for at least 15 minutes. For eyes, call a physician. Remove and wash contaminated clothing before reuse. If swallowed, drink promptly a large quantity of milk, egg whites, gelatin solution or if these are not available, drink large quantities of water. Call a physician immediately. NOTE TO PHYSICIAN: Probable mucosal damage may contraindicate the use of gastric lavage. Measures against circulatory shock, respiratory depression and convulsion may be needed.

Do not reuse empty drum. Return to drum conditioner or destroy by perforating or crushing and burying in a safe place.
