## SWIMMING POOL ALGAECIDE

### CONCENTRATED SWIMMING POOL ALGAECIDE

Keeps Pool Water Clear and Free of Visible Algae

Control Algae Slimes

ACTIVE INGREDIENTS:

n-Alkyl (60% C <sub>14</sub> , 30% C <sub>16</sub> , 5% C <sub>12</sub> , 5% C <sub>18</sub> ) dimethyl, benzyl ammonium chlorides	5%
n-Alkyl (68% C <sub>12</sub> , 32% C <sub>14</sub> ) dimethyl ethylbenzyl ammonium chlorides	5%

INERT INGREDIENTS:	90%
	100%

**DANGER: Keep Out of Reach of Children. See other warnings on side panel.**

NET CONTENTS: 1 GALLON      EPA Reg. No. 9046-18  
CONSAN PACIFIC INC., P. O. Box 208, Whittier, Calif. 90608

ACCEPTED  
May 24, 1973

### DIRECTIONS FOR USE

Initial Dose: 1 gallon ENER JET SWIMMING POOL ALGAECIDE to 50,000 gallons of water.  
Maintenance Dose: 1 quart ENER JET SWIMMING POOL ALGAECIDE to 50,000 gallons of water.

Initial dose is used when filling pool at beginning of swimming season. If pool has visible algae growth, treat with initial dose. Vacuum pool after 24 hours to remove algae debris. If visible algae are still present or re-appear, repeat this treatment procedure as necessary. When pool is free of visible algae, use the recommended maintenance dose.

Maintenance dose should be added at 3-5 day intervals. If high temperatures prevail or pool has unusually heavy use, add maintenance dose more frequently.

If make-up water is added at the rate of more than 10% per week of pool capacity, add 1 quart of ENER JET SWIMMING POOL ALGAECIDE for each 10,000 gallons of fresh make-up water added per week.

When swimming season is over, add 1 gallon of ENER JET SWIMMING POOL ALGAECIDE to 50,000 gallons of water in treating water left in pool. This dose helps provide a measure of control of algae growth during the Winter months. This treatment will also help the servicing of the pool before it is returned to use the following season.

When ENER JET SWIMMING POOL ALGAECIDE is used as directed, it will kill and prevent development of Chlorella pyrenoidosa (green), Phormidium inundation (black algae), Phormidium retzii (Square D algae), Lynqba versicolor (blue-green) and other swimming pool algae.

ENER JET SWIMMING POOL ALGAECIDE is compatible with most commonly used swimming pool chemicals, but should not be mixed with soap or other cleaners, or premixed with other water-treating chemicals. ENER JET SWIMMING POOL ALGAECIDE works best when added by itself directly to pool water. ENER JET SWIMMING POOL ALGAECIDE at use dilution is non-corrosive to inanimate surfaces.

**DANGER:** Keep Out of Reach of Children. Corrosive. Causes eye damage and skin irritation. Do not get in eyes, on skin or on clothing. Wear goggles or face shield and rubber gloves when handling. Harmful or fatal if swallowed. Avoid contamination of food.

**FIRST AID:** In case of contact, immediately flush eyes or skin with plenty of water for at least 15 minutes. For eyes, call a physician. Remove and wash contaminated clothing before reuse.

If swallowed, drink promptly a large quantity of milk, egg whites, gelatin solution or if these are not available, drink large quantities of water. Avoid alcohol. Call a physician immediately.

**NOTE TO PHYSICIAN:** Probable mucosal damage may contraindicate the use of gastric lavage. Measures against circulatory shock, respiratory depression and convulsion may be needed.

**FISH AND/OR WILDLIFE CAUTION:** "This product is toxic to fish. Treated effluent should not be discharged where it will drain into lakes, streams, ponds, or public water, and apply this product only as specified on this label. Rinse empty container thoroughly with water and discard."
