

### DIRECTIONS FOR USE

**FOR ROACHES AND WATERBUGS**, treat infested areas around refrigerators, sinks and shelving, all cracks, crevices, and baseboards, moldings, and other hiding or resting places. Apply also around all pipe openings through walls, floors and open cracks between tile. Avoid contamination of foods. Repeat treatment as often as necessary.

**FOR SILVERFISH**, apply behind shelving and bookcases, to baseboards, pipe opening, and other hiding places. Use caution not to contaminate food. Apply as often as necessary.

**FOR ANTS**, apply to trails, runways and areas they visit. Pay particular attention to baseboards, door and window frames and sills, and all cracks and crevices opening to the outside of the house. Repeat when necessary.

**FOR SOW BUGS AND CENTIPEDES**, dust thoroughly infested corners of pipes, storage localities, and other such infested areas in basements; repeating the applications as necessary.

# County PEST CONTROL

ROACH
