

<p>U.S. ENVIRONMENTAL PROTECTION AGENCY OFFICE OF PESTICIDES PROGRAMS REGISTRATION DIVISION (TS-767) WASHINGTON, D.C. 20460</p> <p>NOTICE OF PESTICIDE: <input checked="" type="checkbox"/> REGISTRATION <input type="checkbox"/> NEREGISTRATION <i>(Under the Federal Insecticide, Fungicide, and Rodenticide Act, as amended)</i></p>	<p>EPA REGISTRATION NO. 9007418</p>	<p>DATE OF ISSUANCE 12-3-79</p>
		<p>TERM OF ISSUANCE</p> <hr/> <p>NAME OF PESTICIDE PRODUCT One Half Ounce Chlorinating Tablets</p>
<p>NAME AND ADDRESS OF REGISTRANT (Include ZIP code)</p> <p>┌ Aspen Industries Incorporated ┐ Route 281 at Lake Road P. O. Box 177 Tully, NY 13159 └ ────────────────────────────────────┘</p>		
<p>NOTE: Changes in labeling formula differing in substance from that accepted in connection with this registration must be submitted to and accepted by the Registration Division prior to use of the label in commerce. In any correspondence on this product always refer to the above U.S. EPA registration number.</p>		
<p>On the basis of information furnished by the registrant, the above named pesticide is hereby Registered/Reregistered under the Federal Insecticide, Fungicide, and Rodenticide Act.</p>		
<p>A copy of the labeling accepted in connection with this Registration/Reregistration is returned herewith.</p>		
<p>Registration is in no way to be construed as an indorsement or approval of this product by this Agency. In order to protect health and the environment, the Administrator, on his motion, may at any time suspend or cancel the registration of a pesticide in accordance with the Act. The acceptance of any name in connection with the registration of a product under this Act is not to be construed as giving the registrant a right to exclusive use of the name or to its use if it has been covered by others.</p>		
<p>This product is conditionally registered in accordance with the provisions of Section 3 (c) (7) (A) of the Act, since you have agreed that you will submit and/or cite all data required for registration/re-registration of your product under FIFRA Section 3 (c) (5), when the agency requires all registrants of similar products to submit such data.</p>		
<p>If these conditions are not complied with the registration will be subject to cancellation in accordance with Section 6 (e) of the Act.</p>		
<p>This registration is being issued with the understanding that the derivative of cyanuric acid which is contained in this product is under scrutiny for potential adverse effects to humans.</p>		
<p>There may be some regulatory actions directed against all registered products containing this chemical as an active ingredient at some time in the future.</p>

DIRECTIONS FOR USE

IT IS A VIOLATION OF FEDERAL LAW TO USE THIS PRODUCT IN A MANNER INCONSISTENT WITH ITS LABELING.

FOR CONTINUOUS DAILY CHLORINATION. Before first use of these stabilized SLOW DISSOLVING 1/2 Ounce Chlorinating Tablets, be sure to take the following steps.

- A) Adjust the pool water pH value to between 7.2 pH and 7.8 pH as determined by a suitable test kit, and adjust Total Alkalinity to 100 ppm.
- B) Stabilize the pool water to at least 40 ppm, by the addition of Tabex Conditioner as directed on container label. Thereafter regular use of Tabex 1/2 Ounce Chlorinating Tablets will provide any needed makeup conditioner (Stabilizer).
- C) Superchlorinate (Shock Treat) the pool water to 4 ppm using our Tabex Super Shock Tablets. One tablet in 2,500 gallons of water immediately provides 1 ppm free chlorine reading. See that product labeling for actual use instructions.
- D) Once the pool water has been made ready by following A, B & C use these 1/2 Ounce Chlorinating Tablets to maintain your free chlorine residual at a safe and efficient 1.0-1.5 ppm. Test your water frequently to maintain this residual using a suitable free chlorine test kit. By means of an automatic chlorinator, float device or skimmer dispenser immerse one 1/2 Ounce Chlorinating Tablet—or as many as may be required to continuously maintain the safe free available chlorine level—for each 450-900 gallons of pool water. **NEVER ADD THESE 1/2 OUNCE CHLORINATING TABLETS DIRECTLY INTO THE SWIMMING POOL AS DISCOLORATION OF THE POOL FINISH MAY OCCUR.**
- E) Superchlorinate (Shock Treat) the pool water at least twice monthly (more often in warm climates—water temperature over 85° F.). Failure to Superchlorinate can result in increased combined chlorines (chloramines) and possible growth of algae. Use Tabex Super Shock Tablets to accomplish super chlorination (See container label for use directions)

Physical and Chemical Hazards: Strong Oxidizing Agent. Mix only with water. Use clean, dry utensils. Do not add this product to any dispensing device containing remnants of any other product. Such use may cause a violent reaction leading to fire or explosion. Contamination with moisture, organic matter, or other chemicals may start a chemical reaction with generation of heat, liberation of hazardous gases, and possible generation of fire and explosion. In case of contamination or decomposition, do not reseal container. If possible, isolate container in open air or well ventilated area. Flood with large volumes of water, if necessary.

Practical Treatment (First Aid): If swallowed, feed bread soaked in milk followed by olive oil or cooking oil. Call a physician immediately. If on skin, brush off excess chemical and flush skin with cold water for at least 15 minutes. If irritation persists, get medical attention. If in eyes, flush with cold water for at least 15 minutes. Get medical attention.

Storage and Disposal: Keep product dry in tightly closed container when not in use. Store in a cool, dry, well ventilated area away from heat or open flame. In case of decomposition, isolate container, if possible, and flood with large amounts of water to dissolve all material before discarding. Place in trash collection or dispose in approved landfill area, or bury in a safe place.
