Tabex[®]

Algaecide Concentrate[™]

ACCEPTED
9087-26
SEP 9 1983
Under the Federal Insecticide, Fungicide, and Rodenticide Act
EPA REG. NO. 9087-26

ACTIVE INGREDIENT 30.0 PERCENT
Poly[oxyethylene (dimethyliminio) ethylene
(dimethyliminio) ethylene dichloride].
INERT INGREDIENT 70.0 PERCENT

THIS PRODUCT CONTAINS 2.67 LB. OF ACTIVE INGREDIENT PER GALLON
AND WEIGHS 8.9 LB. PER GALLON

CAUTION: KEEP OUT OF REACH OF CHILDREN.

See side panel for precautionary statements and
hazards to humans and domestic animals.

Net Contents: 1 U.S. Quart (32 fluid ounces) (946 ml)

DIRECTIONS FOR USE GENERAL CLASSIFICATION

IT IS A VIOLATION OF FEDERAL LAW TO USE THIS PRODUCT IN A
MANNER INCONSISTENT WITH ITS LABELING

Tabex Algaecide Concentrate is used to control the growth of algae in swimming pools, exterior spas, whirlpools, and hot tubs. For maximum effectiveness pools, spas, whirlpools, and hot tubs containing heavy growth of algae should be cleaned prior to using Tabex Algaecide Concentrate.

For pools having just visible algae growth add an initial dose of 23.5 to 36.4 fluid ounces of Tabex Algaecide Concentrate per 10,000 gallons of water and remove settled algae debris by cleaning. For treatment of a freshly cleaned and filled pool add initially 12.8 to 23.5 fluid ounces of Tabex Algaecide Concentrate per 10,000 gallons of water. Subsequent additions of 4.3 to 8.7 fluid ounces of Tabex Algaecide Concentrate per 10,000 gallons of water should be made every 5 to 7 days after initial treatment for maintenance.

Spas, whirlpools, or hot tubs having just visible algae growth require an initial dose of 2 to 4 fluid ounces of Tabex Algaecide Concentrate per 1,000 gallons of water. For treatment of a freshly cleaned and filled spa, whirlpool, or hot tub, add initially 1 to 2 fluid ounces of Tabex Algaecide Concentrate per 1,000 gallons of water. Subsequent additions of 0.5 to 0.8 fluid ounces of Tabex Algaecide Concentrate should be made every 5 to 7 days after initial treatment for maintenance.

Tabex Algae Out Liquid Concentrate is compatible with those chemicals normally used to treat pools and spas and is effective at both acid and alkaline pH. Tabex Algaecide Concentrate can be used in pools and spas treated with chlorine chemicals and may reduce the amount of those chemicals normally required. However, do not mix Tabex Algaecide Concentrate with concentrated dry or liquid chlorine products.

PRECAUTIONARY STATEMENTS HAZARDS TO HUMANS AND DOMESTIC ANIMALS

CAUTION: Harmful if swallowed. Avoid breathing vapors. Avoid contact with skin, eyes, or clothing.

FIRST AID: If swallowed, drink promptly a large quantity of milk, egg whites, gelatin solution, or, if these are not available, drink large quantities of water. Avoid alcohol. Call a physician immediately.

ENVIRONMENTAL HAZARDS: This pesticide is toxic to fish. Keep out of lakes, streams, or ponds. Permits may be required for discharges containing this pesticide into lakes, streams, ponds, or public water. For guidance, contact the regional office of the Environmental Protection Agency.

STORAGE AND DISPOSAL

Keep container closed when not in use. Do not contaminate water, food, or feed by storage, disposal or cleaning of equipment. Residue that cannot be used or reprocessed should be disposed of in a landfill approved for pesticides or buried in a safe place away from water supplies. Open burning is prohibited. **PLASTIC CONTAINERS:** Do not reuse empty container. Triple rinse and incinerate or dispose of in an approved landfill or bury in safe place.
