

4. For Sanitizing Buildings and Equipment on the Farm.

To sanitize surfaces of buildings, equipment or utensils which have previously been thoroughly cleaned, use 1 ounce of disinfectant in 5 gallons of water. Spray or swab solution on surfaces to be sanitized. Allow to drain dry without rinsing.

5. Shoe Bath.

To help prevent tracking disease organisms into poultry houses, farrowing houses and hog barns, place a shoe bath with 3 ounces of disinfectant per gallon of water inside the doorway. Scrape off shoes outside doorway and stand in shoe bath for 30 seconds prior to entering. Change shoe bath daily.

6. Deodorant.

Wayne disinfectant destroys many odors as it sanitizes and disinfects. For general deodorant applications (garbage pails, refuse containers, etc.) swab or spray on a solution of 1 ounce of disinfectant per gallon of water.

7. Food Plant Sanitization.

Use 1 ounce of Wayne Disinfectant in each 5 gallons of water as the final sanitizing rinse on previously cleaned food processing equipment and utensils. Drain, but do not rinse. When used as so directed, Wayne Disinfectant does not require a final potable water rinse, as prescribed in Federal Food Additive Regulation 121.2547.

APPLICATIONS

Wayne Disinfectant kills a broad range of micro-organisms in the environment which are responsible for such common diseases as CRD and pullorum in poultry; pig scours; mastitis in swine; respiratory infections in swine; and many others.

WARNING

1. Avoid contamination of food.
2. Use of this product may cause skin irritation or damage to eyes. Avoid contact with skin and eyes. May be harmful if swallowed. In case of contact, flush immediately with plenty of water. For eyes, get medical attention.
