

LIQUID MOSS-a-Way

EFFECTIVE FOR CONTROLLING MOSS IN LAWNS

Also recommended for:
... making lawns "deep green" in color

Contents will treat 1000 sq. ft. of moss infected grass

Active Ingredients: Ferrous sulfate* 16.5% • Inert Ingredients: 83.5%
*Equivalent to 6.0% Fe, metallic iron

EPA REG. NO. 9123-17
EPA EST. NO. 9123-WA-1

CAUTION: KEEP OUT OF REACH OF CHILDREN
(See back panel for additional cautions)

Net Contents: 1 Gallon (3.785 liters) Mfg. by Magnolia Fertilizer Co. • Kirkland, WA 98033
Product of USA

CAUTION: Harmful if swallowed. Avoid contact with skin, eyes and clothing. In case of contact, wash with plenty of water. Wash hands thoroughly after using.

***IMPORTANT:** Avoid contact with concrete, brick, tile or painted surfaces as severe staining will result. Do not reuse empty container. Wash thoroughly with water and detergent. Discard in a safe place.

This product is toxic to fish. Keep out of streams, lakes or ponds. Do not apply where run-off may contaminate bodies of water. Do not contaminate water by cleaning of equipment or disposal of wastes. Apply this product only as specified on this label.

MOSS-A-WAY supplies "chemically available" iron which is more effective than other forms of non-chelated iron.

DIRECTIONS

***IMPORTANT:** Will stain concrete. See side panel.

1. Use *plastic* sprinkling can. (This product will corrode galvanized metal.)
2. To prepare use-solution: Add 1 pint MOSS-A-WAY to 2½ gallons water in sprinkling can.
3. Apply entire contents of sprinkling can to 125 sq. ft. lawn (10' x 12').
4. Soak the heavy moss patches with solution.
5. Moss will turn dark in a few days and can be removed by raking.
6. To control regrowth, apply half-strength solution at first sign of moss.
