

[9143-36]

DIRECTIONS

U.S. Public Health Service (71.513E)
(I) The insecticide shall be dispensed in the amount of not less than 5 grams each 1,000 cu. ft. of enclosed space in the aircraft, and shall be released or sprayed throughout all accessible compartments.
(II) Disinsectization may be accomplished either while the aircraft is in flight or while on the ground prior to take-off, but in no case shall disinsectization be accomplished later than 30 minutes prior to the first landing at a United States port.
(III) The ventilation system shall be stopped and all openings to the exterior kept closed while the insecticide is being released or sprayed, and for a period of not less than 3 minutes thereafter. If disinsectization is accomplished on the ground prior to take off the ventilation system may be opened at the end of such period, provided that the system is equipped with filters or other means for preventing the entrance of insects into the aircraft, but doors, windows, or other such openings to the exterior shall be kept closed until after the take off, except in the case of emergency, or to permit persons applying the insecticide to reboard.
USE NO GREATER DOSAGES THAN REQUIRED. EXCESSIVE SPRAYING IS WASTEFUL.

AIRCRAFT INSECTICIDE SPRAY

kills

flies, mosquitoes, gnats

NET WEIGHT 1 POUND

**CAUTION: KEEP OUT OF REACH OF CHILDREN.
CONTENTS UNDER PRESSURE. SEE OTHER
CAUTIONS ON BACK PANEL.**

E.P.A. REG. NO. 9143-36

TO OPERATE:

1. Remove protective cap.
2. Holding dispenser upright, point nozzle in desired direction and press dispensing button to spray.
3. Replace protective cap to prevent accidental discharge when not in use.

ACTIVE INGREDIENTS:

Pyrethrins	0.45%
Piperonal bis [2-(2-butoxyethoxy)ethyl] acetal	2.43%
Other related compounds	0.27%
Petroleum distillate	11.85%
INERT INGREDIENTS:	85.00%

Dichlorodifluoromethane
Trichloromonofluoromethane

From TROPICAL Synergist
CAUTION: Cover or remove all food and feedstuffs prior to application to prevent contamination.
WARNING: Contents under pressure. Do not puncture. Do not use or store near heat or open flame. Exposure to temperatures above 130° Fahrenheit may cause bursting. Never throw container into fire or incinerator.
