

MAR 2 1978
 9143-38

DIRECTIONS:

Skin application for mosquitoes, biting flies, gnats and fleas. Hold unit 4 to 6 inches from the skin of arms or legs while applying with a slow sweeping motion until surface is slightly moistened. Rub with hand to insure even distribution. To apply to face and neck spray in palm of hand in short bursts and spread on the skin. **DO NOT SPRAY DIRECTLY ON FACE.**

For protection against mosquitoes and biting flies, pay special attention to where biting through clothes occurs — shoulders, elbows, seat of trousers, front of trousers, front of thighs, knees and socks. For protection against chiggers, mites, fleas and ticks, pay special attention to the soles, shoe tops and fly, trouser leg cuffs, trouser fly and waistband and the front fly and cuff fly of the shirt.

FOR EXTERNAL USE ONLY

CAUTION: Avoid contact with eyes and lips. Avoid breathing of mist. Harmful if swallowed.

Extremely flammable, contents under pressure. Do not use near fire, heated surfaces, sparks, or flames. Do not puncture or incinerate container. Exposure to temperatures above 120°F may cause bursting.

The spraying of clothing does not protect the exposed skin. This material affects lacquer, paint, certain plastic articles and some synthetic fabrics. Avoid treating goggles, watch crystals, painted helmets, etc.

ACTIVE INGREDIENTS:

N, N-Diethyl-metololuamide 14.25%
