Directions for use  
Skin applications for leeches, mosquitoes, biting flies, gnats, and fleas. Shake about 12 drops into one hand, rub hands together, and apply thoroughly in a thin layer to all areas of exposed skin, much as in washing. Sufficient repellent should be applied to give a uniform film. APPLY WITH CAUTION AROUND EYES AND MOUTH.

Clothing treatments against leeches, biting insects, chiggers, (mites), fleas, and ticks. When clothing cannot be impregnated with bulk repellent, apply by pouring a dozen drops into one hand, rub the hands together, and then rub lightly on the socks and other clothing. Make liberal applications along all openings of the clothing, such as inside the neck band, and the fly and bottom of the trousers, and where clothing fits tightly as across the shoulders, elbows, hips, and knees. Repeat smear-
