

[9143-58]

TO OPERATE AEROSOL

Remove protective cap.
Holding dispenser upright, point nozzle in desired direction and press dispensing button to spray.
Replace protective cap to prevent accidental discharge when not in use.

DIRECTIONS

U.S. Public Health Service — Section 71.102(b), Part 71, Title 42

- I. The insecticide shall be dispensed in the amount of not less than 5 grams for each 1,000 cubic feet of enclosed space in the aircraft, and shall be released or sprayed throughout all accessible compartments.
- II. Disinsecting may be accomplished either while the aircraft is on the ground before take-off from the last airport before arrival in the United States, or after departure from such airport (for compartments accessible in flight). In no case shall disinsecting be accomplished later than 30 minutes before the first landing at a United States port.

USE NO GREATER DOSAGES THAN REQUIRED.
EXCESSIVE SPRAYING IS WASTEFUL.

CAUTION:

Foods should be removed or covered during treatment. All food processing surfaces should be covered during treatment or thoroughly cleaned before using. When using the product in these areas, apply only when the facility is not in operation.
