House And Garden Spray

DIRECTIONS FOR USE

It is a violation of Federal law to use this product in a manner inconsistent with its labeling.

Shake well before each use. Remove protective cap. An spray opening from person. Push button to spray.

INDOORS - TO KILL HOUSEFLIES, MOSQUITOES AND GNATS: Close all doors and windows. Spray inside inward, direct the spray mist to all parts of the room, especially windows and other light sources which attract these insects. Fill the room with mist. Leave from the treated area. Keep the room closed for at least 15 minutes. ventilate the room when treatment is completed.

INDOORS - TO KILL CRAWLING INSECTS: Roaches, ants, spiders, grass mites, scorpions, silverfish, spider and centipedes. Spray thoroughly and frequently into hiding places such as cracks, crevices, under pipes, openings around pipes and cracks under refrigerator, bookshelves, door frames, baseboards, and storage areas. SPRAY DIRECTLY ON INSECTS when possible. Repeat as necessary.

TO KILL ANTS: Spray trails, nest and points of entry. Spray on ants where possible. Repeat as necessary.

TO KILL FLEAS ON DOGS AND CATS: Apply liberally to animals along back, under fur and in other areas exposed to sun and heat. Part hair to be sure skin and fur are covered. Hold nose about one foot away while spraying. Apply mist until it thoroughly soaks. Do not directly spray in eyes, or mouth. Repeat to reduce infestation. Thoroughly spray the animals bedding and other nesting areas. Treat these areas at the rate of two seconds per square foot while spraying at a distance of 12 to 18 inches. Also spray entire inside surface of dog houses. Repeat as necessary.

OUTDOORS - TO KILL FLYING INSECTS: Spray areas infested with mosquitoes, gnats, yellow flies, house flies, deer flies and flying insects. Follow precautionary statements above. Hold nozzle 18 to 24 inches from plants, building and spray areas. Spray about every 2 to 3 seconds in cover. Treat at rate of 1 to 2 seconds per cubic yard of space. Repeat misting every 2 to 3 hours. To reduce annoyance from these flying insects, treat open porches and patios in a similar manner. Spray only when you are to use. Allow spray to dissipate before occupying the treated area. Repeat as necessary.

OUTDOORS - TO PROTECT ORNAMENTAL PLANTS: Kill aphids, mealybugs, scale, thrips, spider mites, Japanese beetles, grasshoppers, leaf beetles, and Japanese beetles on plants, lawns, shrubs, snapdragons, agapanth, chrysanthemums, nasturtiums, delias, geraniums, impatiens, lilies, marigolds, ivy, sedum, and other plants. Repeat as necessary.

ORNAMENTAL PLANTS: Kill aphids, mealybugs, scale, thrips, Japanese beetles on ornamental plants, Japanese beetles, ornamental butterfly, and Colorado blue beetle. Repeat as necessary. Pyrethrin and Cypermethrin are used with EXTREME CAUTION. Certain varieties have shown signs of burn under certain conditions of use such as heavy dew.

ACTIVE INGREDIENTS:

*Resmethrin	
[5-(phenylmethyl)-3-furyl] methyl	
2,2-dimethyl-3-(2-methyl-1-propenyl)	
cyclopropanecarboxylate	0.250% WW
Related compounds	0.034%
INERT INGREDIENTS:	99.718%
	100.00%

*Cis/trans isomers ratio: max. 30% (±) cis and 70% (±) trans.
 + U.S. Patent No. 3,465,007.

 COLLECTION**

Spray directly on insects. Hold container 18 inches from the intended place. Spray in short bursts of 2 to 3 seconds, or spray at the rate of one burst per second. Do not spray in all directions. Do not spray in all directions. Do not spray in all directions.

INDOOR TO PROTECT PLANTS: Kill aphids, mealybugs, scale, thrips, spider mites, Japanese beetles, grasshoppers, leaf beetles, and Japanese beetles on plants, lawns, shrubs, snapdragons, agapanth, chrysanthemums, nasturtiums, delias, geraniums, impatiens, lilies, marigolds, ivy, sedum, and other plants. Repeat as necessary.

OUTDOORS TO CONTROL NUISANCE PESTS: Adult spray kills, eggs and young of many insects. Repeat as necessary.

FLEAS: Same as directed for indoor use.

FLYING INSECTS: Repeat as directed for indoor use.

SPRAYS: Application should be made in less frequent than insects are at risk. Spray liberally into hiding and breeding places containing many insects as possible. Repeat as necessary.

INDOORS FOR PROTECTION OF WOOLLEN GOODS: Apply only to garments, linens, curtains, and other woolen fabrics. Before placing in storage in all forms of clothing, bedding, etc. and in carpeted areas. Do not spray on or near garments and linens before washing. Clean carpets, draperies and other fabrics by thoroughly brushing before treating.

Hold the container 18 inches to 24 inches from the fabric and apply the spray while moving slowly in a forward and back motion across the fabric while covering one foot per second. Spray the entire fabric surface until it is slightly moist or damp to the touch. When possible treat both sides of the fabric. Do not wash or wet fabric. For maximum protection place treated fabrics after drying in plastic or paper bags. Also treat cracks and crevices of chests, closets and trunks where these fabrics are being stored. Treat the cracks and crevices at the rate of two seconds per linear foot.

When applied as directed on fabric and in storage areas the treatment will offer protection for 6 months. To insure protection inspect the fabric in the storage area once every three months. Repeat applications only when necessary. Avoid heavy applications. When possible make application outdoors if application is made indoors do not remain in treated area. Wash the skin after treatment is completed.
