This Algicide is formulated to complement summing pool water being treated with normal chlorine systems, it is capecially effice tive against growth of algae and, be not as votatile, aids in main laining pool water clarify and sparkle. The residual effectiveness of this algicide tends to stabilize the tors the heat heatment system.

This Algicide is compatible with most chemicals normally used in swimming pool maintenance, however in its concentrated form, this chemical should not come at contact with high concentrations of chlorine. DO NOT Mix ALGICIDE AIRO CHLODINE TOGETHER before adding to the pool. These chemicals should be handled separately. This Algicides secondarical efficient and state in use dilution, this project is non-staning and not corresive to pool surfacts and equipment.

### DIRECTIONS FOR USE

It is a violation of Federal law to use this pleaset in a manner in John I tent with its labeling

Foil in initial application or when pool water is changed, use one quind per 25,000 gallons of water.

For maintenance, use four ounces per week per 5,000 gallons of water. After each rain of consequence, add one ounce per 5,000 gallons of water in addition to the above amounts.

The appropriate amount of this at 10,de should be added by pour-ling directly into the poor. More rejudication will be achieved by pouring a little of the epoched amount into several areas of the pool. Recirculation or summing as very well assure regiding from.

DISPOSAL: Do not relied compty state for R was classly as a taken and put in trach callection.

#### PESTICIDE DISPOSAL

Pesticide, spray mixture, or rinse water that cannot be used according to label instructions must be disposed of according to Federal or approved state procedures under Subtitle C of the Resource Conservation and Recovery Act.

### CONTAINER DISPOSAL

Triple ringse (or equivalent). Then offer for recycling or reconditioning, or dispose of in a sanitary landfill, or by incineration if allowed by state and local authorities.

The heading "STORAGE AND DISPOSAL" must be of the same type size as the child hazard warning statement.

3. Submit five (5) copies of your final printed labeling before you release the product for shipment. Refer to the A-79 Enclosure for a further description of final printed labeling.

If these conditions are not complied with, the registration will be subject to cancellation in accordance with FIFRA sec. 6(e). Your release for shipment of the product constitutes acceptance of these conditions.

A stamped copy of the label is enclosed for your records.
