### FIRST AID

- If inhaled
  - Move person to fresh air.
  - If person is not breathing, call 911 or an ambulance, then give artificial respiration, preferably by mouth-to-mouth, if possible.
  - Call a poison control center or doctor for further treatment advice.
- If on skin or clothing
  - Take off contaminated clothing
  - Rinse skin immediately with plenty of water for 15-20 minutes.
  - Call a poison control center or doctor for treatment advice.
- If in eyes
  - Hold eye open and rinse slowly and gently with water for 15-20 minutes.
  - Remove contact lenses, if present, after the first 5 minutes, then continue rinsing eye.
  - Call a poison control center or doctor for treatment advice.
- If swallowed
  - Call a poison control center or doctor immediately for treatment advice.
  - Have person sip a glass of water if able to swallow.
  - Do not induce vomiting unless told to do so by the poison control center or doctor.
  - Do not give anything by mouth to an unconscious person.

Have the product container or label with you when calling a poison control center or doctor, or going for treatment.  
Questions? Contact: 1-800-537-5567

### NOTE TO PHYSICIAN

Probable mucosal damage may contraindicate the use of gastric lavage.

### STORAGE AND DISPOSAL

**PROHIBITIONS:** Do not contaminate water, food, or feed by storage or disposal. Do not store on side. Avoid impacting of side walls.

**CONTAINER DISPOSAL:** Triple rinse (or equivalent). Then offer for recycling or reconditioning or puncture and dispose of in a sanitary landfill, or incineration or, if allowed by state and local authorities by burning. If burned, stay out of smoke. Do not discharge effluent containing this product in lakes, streams, ponds, estuaries, oceans or other waters unless in accordance with the requirements of a National Pollutant Discharge Elimination System (NPDES) permit and the permitting authority has been notified in writing prior to discharge. Do not discharge effluent containing this product to sewer systems without previously notifying the local sewage treatment plant authority. For guidance contact your State Water Board or Regional Office of the EPA.

### SPILL OR LEAK

Contain spill/leak. Place in an appropriate waste container. Flush spill area with water. Observe local, state and federal laws and regulations regarding disposal, spill, cleanup, removal or discharge.

**WHERE TO USE:** Acidisol is recommended for sanitizing tanks, piping and processing equipment in: Dairies, Dairy Farms, Cheese Plants, Ice Cream Plants, Restaurants, Beverage Plants, and Food Processing Plants.

**DIRECTIONS FOR USE:** It is a violation of Federal law to use this product in a manner inconsistent with labeling. Remove gross food particles and soil before the application of Acidisol by a pre-flush or pre-scrape or when necessary by a pre-soak treatment.

Thoroughly wash the surface or objects with a detergent or compatible cleaner followed by a potable water rinse prior to the application of the sanitizing solution.

For sanitizing by immersion: use 1 oz. Acidisol for every 2 gallons water. Contact time 2 minutes unless advised differently by your Health Department.

Dairy and Food Plant Equipment - Sanitize at least 5 minutes before products are run.

**TO SANITIZE BY FLOW METHOD:** Add 1 oz. Acidisol to 2 gallons water. Pump through the system until full flow is obtained at all extremities, the system is completely filled with the sanitizer and all air is removed from the system. Close drain valves and hold under pressure for at least 2 minutes to insure contact with all internal surface. Drain the solution and air dry.

**CIP:** Rinse with warm water. Add 1 oz. Acidisol to 2 gallons water. Pump solution through system until full flow is obtained at all extremities, the system is completely filled with the sanitizer and all air is removed from the system. Close drain valve and hold under pressure for at least 10 minutes to insure contact with all internal surface. Drain the solution and air dry.

**CIP OF FLOW METHOD OF SANITIZING:** Add 1 oz. Acidisol to 2 gallons water. Pump through the system until full flow is obtained at all extremities. The system is completely filled with the sanitizer and all air is removed from the system. Close drain valve and hold under pressure for at least 2 minutes for the flow method and 10 minutes for CIP. Drain the solution and air dry.

**IMMERSION:** Use 1 oz. Acidisol for every 2 gallons of water. Contact time 2 minutes unless advised differently by your Health Department.

Acidisol fulfills the criteria of Appendix "F" of Grade 'A' Pasteurized Milk Ordinance 1965 Recommendations of the Health Service when tested by the Chambers Method.
