

BROM-O-SOL

For preplanting treatment of seed and plant beds,
also ground floral and nursery crops.

DIRECTIONS: Use Brom-O-Sol to control nematodes such as cyst formers, meadow (lesion), root knot, lance, sting and sprig. Also for the control of insects such as white grubs, wire worms, and other similar soil-borne pests. Apply when the soil is in a good friable, moist condition.

APPLICATION: Use Brom-O-Sol at the rate of 250 to 500 pounds per acre. Apply by means of chisels spaced not more than 12 inches apart set at a depth of 4 to 6 inches. Use at the higher rate in heavy soils, soils with high organic content, or when soil temperatures are low. Cover with polyethylene or other gas-tight sheeting as soon as possible after chisel application. Leave cover on for 24 hours if soil temperature is 60°F. or higher. Expose for 48 hours if soil temperature is between 50°F. and 60°F.

PRECAUTIONS: Aerate treated soil for 48 to 72 hours before planting seed or 7 to 10 days before putting out vegetative growth such as cuttings, slips, sets or spuds. Under some conditions, growth difficulty has been experienced on carnations, holly, snapdragons, multiflora roses, and certain other plants. If there is a question use on a small spot to determine safety.

Apply fertilizers containing nitrates or ammonium sulfate after the crop is established and the soil temperatures are above 65°F. to avoid ammonia injury or nitrogen starvation.

To prevent injury to desirable living plants, keep edge of cover at least 18 inches from drip line. Do not apply to areas containing living roots of these plants.

Fumigated areas may be protected against recontamination by wooden fumes or trenches to prevent flooding or washing. Recontamination by footwear or equipment should be kept to a minimum.

Apply this product only as specified on this label.

This product toxic to fish.

- Remove victim to fresh air immediately.
- Keep victim lying down and warm.
- Give artificial respiration if breathing has stopped.
- Call a physician immediately.

DANGER

WARNING: Poisonous fumes and vapors. Harmful or fatal if swallowed.

- Vapors can be fatal if inhaled.
- Contact can cause burns.
- Do not get in eyes, on skin, or on clothing.
- In case of contact, wash skin thoroughly with soap and water. Flush eyes with water for at least 15 minutes. Get medical attention at once. Remove contaminated clothes, including shoes, immediately and thoroughly aerate before re-use.
- For skin irritation use boracic lotion or skin ointment.
- Get medical attention.
- Be sure container is closed completely.
- Store in a cool, well ventilated place.

PERSONAL PROTECTION: During application or re-entry of treated areas, use full gas mask with B1 A1 K canister designed for acid gases and organic vapors.

- Empty containers should be returned to KAISER AGRICULTURAL CHEMICALS.
