Xylene-range aromatic solvent 22%
INERT INGREDIENTS:
TOTAL 100%
Product contains 8 pounds of Toxaphene per gallon

STOP—READ LABEL BEFORE USING!

KEEP OUT OF REACH OF CHILDREN WARNING

STATEMENT OF PRACTICAL TREATMENT

FIRST-AID TREATMENT

INTERNAL: If Riverside Toxaphene 8 is swallowed, do not induce vomiting. See Physician's Note. Never give anything by mouth to an unconscious person. CALL A PHYSICIAN IN ALL CASES OF SUSPECTED POISONING.

EXTERNAL: Remove contaminated clothing and wash skin thoroughly with soap and water. If in eyes, flush with clean water for at least 15 minutes. Call a physician.

PHYSICIAN'S NOTE: If swallowed, use gastric lavage. Avoid aspiration. Toxic herbicide products cause various systemic reactions that respond to supportive and symptomatic treatment. Prompt or correct consultation with a physician is particularly recommended.

If the situation can be given before convulsions start, sodium pentobarbital is the drug of choice. Since toxaphene has a fairly long duration of action, a long-acting barbiturate such as phenobarbital may be used after initial control of convulsions. Refer to "Clinical Handbook on Economic Poisons" which was prepared by the U.S. Department of Health, Education, and Welfare, Public Health Service Communicable Disease Center, Atlanta, Georgia.

SEE LIST ONE FORM FOR ADDITIONAL PRECAUTIONARY STATEMENTS

NOTICE TO DRUM HANDLERS: IN CASE OF FIRE, LEAKY OR DAMAGED DRUMS, OR OTHER EMERGENCY, REPORT AT ONCE BY TOLL-FREE TELEPHONE TO: 800-825-8388.

DIRECTIONS FOR USE

It is a violation of Federal law to use this product in a manner inconsistent with its labeling.

RESISTANCE: Toxaphene 8 may be applied by ground sprayers or by aerial application. Toxaphene 8 is a contact insecticide. It kills insects by direct contact with the insect's body. It does not kill insects by ingestion. It does not kill insects by contact with the insect's food.
