

[9195-1]

**DIRECTIONS FOR USE**

Hold dispenser upright. Direct spray towards surface on areas to be sprayed. Point opening away from face when pressing button. TO CONTROL FLIES, MOSQUITOS, FLYING MOTHS, AND OTHER SIMILAR FLYING INSECTS close doors and windows and direct mist upward toward corners of the room. 15 to 20 seconds is sufficient for an average room.

ROACHES, SILVERFISH, ANTS, SPIDERS, LICE, AND MAGGOTS may be controlled by directing spray into infested areas and into all places where insects are likely to hide. Treated areas should be closed for 15 minutes following spraying. Repeat when necessary or until insects disappear. Cover cooking utensils, dishes and food before spraying.

BED BUGS: Insects must be sprayed direct. To destroy bugs and eggs, take bed apart. Spray joints, slats, springs, and mattress, especially seams, bindings and tufts. Will not rust metal. Spray weekly behind baseboard, moldings, pictures, and loose wall paper to prevent breeding.

CAUTION: Do not set dispenser on stoves or radiators or store in warm places. Do not puncture the container. Discard after it is empty. Do not attempt to refill.

Harmful if swallowed. Keep out of reach of children. Do not spray on food. Do not spray directly on painted surfaces.

U.S.D.A. Reg. No. 9195-1

**NET CONTENTS: 1 LB.**

<b>ACTIVE INGREDIENTS</b>		<b>20%</b>
Petroleum Distillate	16.84%	
N-Octyl Bicycloheptene		
Dicarboximide	1.66%	
Technical Piperonyl Butoxide	1.00%*	
Pyrethrins	.50%	
*Equivalent to 0.80% (butylcarbityl) (6-propylpiperonyl) ether and 0.20% related compounds.
