TURF FOOD

WEED CONTROL

22-6-6

Feeds Your Lawn
Kills Broadleaf Weeds

GUARANTEED MINIMUM ANALYSIS

Total Nitrogen (N) 22%
Available Phosphoric Acid (P₂O₅) 6%
Soluble Potash (K₂O) 6%

2,4-D for control of broadleaf plantain, buckhorn plantain, dandelion, pigweed, ragweed, lambsquarter, cinquefoil, smartweed, purslane.
Silvex for control of yellow woodsorrel, ground ivy, mouse ear chickweed, common chickweed, black medic and white clover.

DIRECTIONS

Apply anytime during growing season when temperature is above 70°. Apply when grass is wet from dew or sprinkling. Use caution when applying this product. Application during periods of extreme heat or humidity could result in burning. If application is to be made during dry weather, water lawn thoroughly prior to applying product. Do not apply when humidity is high and temperature exceeds 90°. For stubborn weeds, use two or three applications four weeks apart. Do not use on desirable clovers, bent, St. Augustine or Dichondra grass. Do not water, mow or use lawn for 36 hours after applications. Do not use on newly seeded areas until after third mowing. Seeded areas may be seeded three to four weeks later--after rains or sprinkling. Use a clean, properly adjusted spreader at setting shown below.

SPREADER SETTINGS

Jackson 5 Greenfield 6 1/2
Sears 5 Lawn Beauty 5
Cyclone 4 1/2 Scott 5 1/2

"Do not reuse container. Destroy by burying in a safe place. Do not burn."

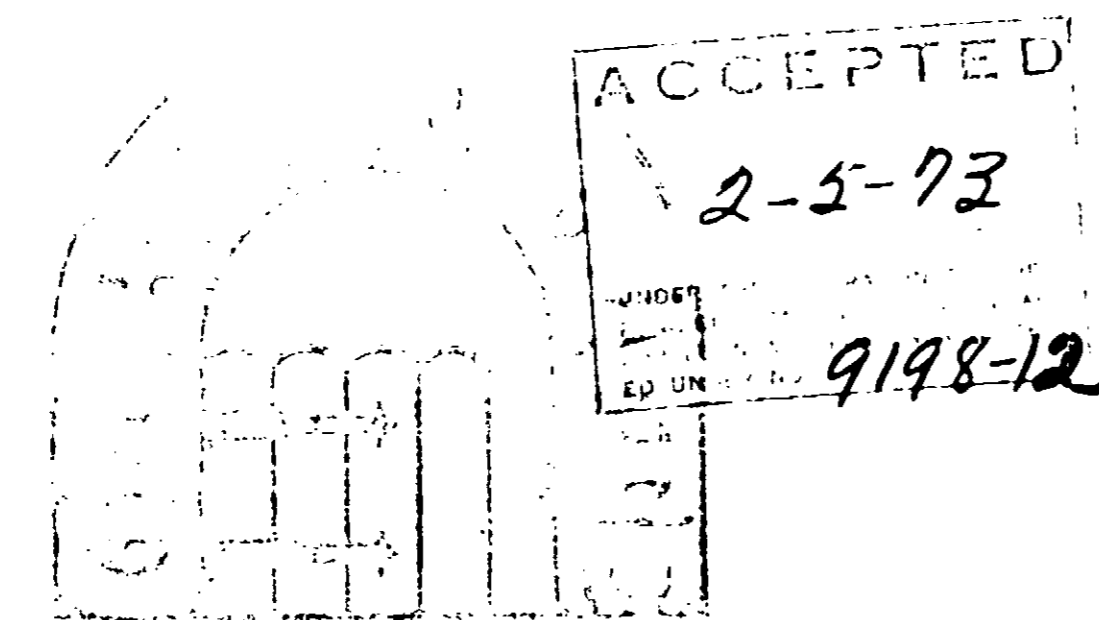

CAUTION

Harmful if swallowed. Avoid contact with skin, eyes or clothing. Do not contaminate feed, foodstuff or animal feed. Do not store near fertilizer, insecticides or herbicides. Keep out of reach of children. Wash thoroughly after use. Avoid drift of dust or spray to desirable plants. Avoid breathing dust. Stay away from the product when in possible places of immediate vicinity. Do not use for any other purpose.

NOTICE

If not used as directed, seller may be liable for any crop damage, loss of or damage to property or damage to health from use of this product.
