(9.1 Kg.)

## THE ANDERSONS PRE-EMERGENT CRABGRASS KILLER PLUS FERTILIZER

XX-XX-XX

### ADVANTAGES

- Keeps out Crabgrass, Foxtail and Barnyard Grass by killing the sprouting seed
- May be used on freshly seeded Bluegrass, Perennial Ryegrass, Fescue and certain other grasses.
- Easy to apply with standard seed and fertilizer spreaders

### KEEP OUT OF REACH OF CHILDREN CAUTION PRECAUTIONARY STATEMENTS HAZARDS TO HUMANS AND DOMESTIC ANIMALS

Harmful if swallowed. Avoid contact with skin, eyes and clothing. Wash thoroughly after using. Avoid breathing dust. Do not contaminate water used for irrigation or domestic purposes. Do not contaminate feed, foodstuffs or ponds. Do not store near seed, other fertilizers, insecticides or fungicides. Do not apply to vegetable crops.

### ENVIRONMENTAL HAZARDS

This product is toxic to fish. Keep out of lakes, streams and ponds. Do not contaminate water by cleaning of equipment or disposal of wastes. Drift of dust may cause injury to nearby susceptible plants.

### DIRECTIONS FOR USE

It is a violation of Federal Law to use this product in a manner inconsistent with its labeling.

This product will control weedgrasses such as Crabgrass (smooth and hairy), Foxtail and Barnyard Grass in newly seeded or established plantings of a Bluegrass, Fescue, Perennial Ryegrass, Redtop, Smoothbrome, Orchardgrass, Zoysia and the following strains of Bentgrass: Penn-cross, Seaside, Highland, Astoria, Nimble, C-1, C-7, C-19. This product is not for use on other Bentgrass strains, Bermuda Grass, vegetable or flower gardens.

### WHEN TO APPLY

Apply prior to germination of weed grasses in the spring. Precise time of application for a specific area will vary due to climate and individual cultural practices. Generally application during February or March will give best results, although control can be expected by applications—up to the time that Forsythia blooms fall. If in doubt, check with your Agricultural Extension Service. For newly seeded areas, apply as the last step before watering.

### HOW TO APPLY

For best results, this product must be applied with no skips or misses. Determine the correct amount for your lawn area. For freshly seeded grass apply at the rate of 3.3 pounds per 1,000 square feet. For established turf apply at 6.6 pounds per 1,000 square feet. The best results are obtained by using the two-step procedure at the recommended half rate settings. Apply half the required amount in one direction and the other half at right angles to the first application. This procedure will minimize the chances of color streaking and erratic crabgrass control. Use the suggested spreader settings as a guide, being sure to check the application rate at the start of each application. At least 1/2 inch of water must be provided by rainfall or watering within 3 days of treatment in order to carry the chemical into the root zone of germinating seeds.

### SUGGESTED SPREADER SETTINGS

SPREADER	Established Lawns 6.6 lbs./1,000 sq. ft.		New Lawns 3.3 lbs./1,000 sq. ft.	
	Normal Rate	Half Rate	Normal Rate	Half Rate
Central	8 1/2	7	7	6
Central Broadcast	5	4	4	3 1/2
Cyclone	5 1/2	4 1/2	4 1/2	4
Greenview	8 1/2	7	7	6
Orto Drop	7 1/2	6	6	5
Orto Broadcast	3	1	1	Not Recommended
Scotts Drop	8	6 1/2	6 1/2	6
Scotts Broadcast	J	F	F	D
Sears Drop	8	6	6	7
Sears Broadcast	5	4	4	3 1/2

NOTE: Above spreader settings are approximate. Differences may occur due to condition of spreader, speed at which applied and roughness of area treated. This bag should cover approximately 3,000 square feet (30' x 100') on new lawns. Calculate the size of the area to be treated and do not over or under apply. Close spreader when filling, stopping or turning. DO NOT HAND SPREAD.

### STORAGE AND DISPOSAL

Store in a dry place. Securely wrap original container in several layers of newspaper and discard in trash. Do not reuse bag. Discard bag in trash.

"Seller warrants that this material conforms to its chemical description and is reasonably fit for the purposes stated on the label when used in accordance with any directions provided, with proper equipment in good working order and under normal conditions of use. Buyer assumes the risk of any contrary use. Seller makes no other express or implied warranty including the warranty of fitness for a particular purpose, and no agent of seller is authorized to do so except in writing with a specific reference to this warranty. In no event shall seller's liability for any breach of warranty exceed the purchase price of the material as to which a claim is made."
