Explanation: Use additional page(s) if necessary. (For section I and II).

Notification of Minor Label Change per PR Notice 95-2: Minor label changes: added optional marketing text, spreader directions, and additional fertilizer analysis.

This notification is consistent with the provisions of PR Notice 95-2 and EPA regulations at 40 CFR 152.46, and no other changes have been made to the labeling of the confidential statement of formula of this product. I understand that it is a violation of 18 U.S.C. Sec. 1001 to willfully make any false statement to EPA. I further understand that if this notification is not consistent with the terms of PR Notice 95-2 and 40 CFR 152.46, this product may be in violation of FIFRA and I may be subject to enforcement action and penalties under sections 12 and 14 of FIFRA.

(Note: the guaranteed fertilizer analysis and spreader settings will vary as regulated by State fertilizer officials)

KEEP OUT OF REACH OF CHILDREN

CAUTION

HAZARDS TO HUMANS AND DOMESTIC ANIMALS

Harmful if swallowed. Avoid contact with skin, eyes and clothing. Wash thoroughly after using. Avoid breathing dust. Do not contaminate water used for irrigation or domestic purposes. Do not contaminate feed, foodstuffs or ponds. Do not store near seed, other fertilizers, insecticides or fungicides. Do not apply to vegetable crops.

STATEMENT OF PRACTICAL TREATMENT

IF IN EYES: In case of contact, immediately flush eyes with plenty of water for at least 15 minutes. Call a physician.

IF SWALLOWED: No specific intervention is indicated as the compound is not likely to be hazardous by ingestion. However, consult a physician if necessary.

IF ON SKIN: Wash with plenty of soap and water.

ENVIRONMENTAL HAZARDS

This product is toxic to fish. Do not apply to water. Do not contaminate water by cleaning of equipment or disposal of wastes. Drift of dust may cause injury to nearby susceptible plants.

DIRECTIONS FOR USE

It is in violation of Federal Law to use this product in a manner inconsistent with its labeling.

Not for use on turf being grown for sale or other commercial use as sod, or for commercial seed production, or for research purposes.

WHEN TO APPLY

Apply prior to germination of weed grasses in the spring. Precise time of application for a specific area will vary due to climate and individual cultural practices. Generally, application during February or March will give best results. Control can be expected by applications up to the time that Forsythias bloom in Spring. If in doubt, check with your Agricultural Extension Service. For newly seeded areas, apply as the last step before watering.

HOW TO APPLY

For best results, this product must be applied without skips or misses. Determine the correct amount for your lawn area. For freshly seeded grass apply at the rate of 2.6-3.3 pounds per 1,000 square feet. For established turf apply at 5.2-6.6 pounds per 1,000 square feet. The best results are obtained by using the two-step procedure at the recommended half rate settings. Apply half the required amount in one direction and the other half at right angles to the first application. This procedure will minimize the chances of color streaking and erratic crabgrass control. Use the suggested spreader settings as a guide, being sure to check the application rate at the start of each application. At least 1/2 inch of water must be provided by rainfall or watering within 3 days of treatment in order to carry the chemical into the root zone of germinating needs.

SUGGESTED SPREADER SETTINGS

HOMEOWNER USE ONLY

(The above is for internal use only and will not appear on the final label copy)

STORAGE AND DISPOSAL

Do not contaminate water, food, or feed by storage and disposal. Keep container closed and away from food, feedstuffs and domestic water supplies. **PESTICIDE DISPOSAL:** Securely wrap original container in several layers of newspaper and discard in trash. **CONTAINER DISPOSAL:** Do not reuse bag. Discard bag in trash.

MANUFACTURERS STATEMENT

This product conforms to the ingredient statement on the label. Manufacturer's directions regarding use of this product are based upon tests believed to be reliable. All statements made concerning this product apply only when used as directed under normal use conditions. **FOLLOW DIRECTIONS CAREFULLY.** Timing and method of application, weather and crop conditions, mixture with other chemicals not specifically recommended and other influencing factors in the use of this product are beyond the control of the manufacturer. Buyer assumes all risks of use, storage and handling of this product.

THIS PRODUCT IS SOLD AS IS. MANUFACTURER MAKES NO WARRANTIES, EXPRESS OR IMPLIED. IN NO EVENT SHALL MANUFACTURER BE LIABLE FOR SPECIAL, INDIRECT, INCIDENTAL OR CONSEQUENTIAL DAMAGES OF ANY KIND.

Manufactured by: The Andersons Lawn Fertilizer Division
d/b/a Free Flow Fertilizer
P.O. Box 119
Maumee, OH 43537

Optional Marketing Text for Subregistrant:

It stops the Grassy Weeds but allows the new grass seed to sprout! You may seed your lawn the same day that you apply my Crabgrass Preventer Plus New Seed Lawn Fertilizer.

- Controls Grassy Weeds before they emerge. (Contains Tupersan*)
- For lawn repair and establishing new lawns from seed or sod.
- Provides complete new seeding lawn fertilizer with controlled release Nitrogen.
- **Formulated for New Lawns and Newly Laid Sod**
- **Stops crabgrass before it starts!**
- **Safely seed the same day!**
- **Even feeds and greens!**

10 (Diagram) NITROGEN For a dense green lawn
15 (Diagram) PHOSPHATE Improves root growth
10 (Diagram) POTASH Vital for growth and drought resistance

HOMEOWNER USE ONLY

(The above is for internal use only and will not appear on the final label copy)

Additional Spreading Directions:

IMPORTANT: It is important to follow the directions as indicated so that injury will not occur to your lawn. Spreader settings are approximate. Differences may occur due to condition of spreader, speed at which applied, and roughness of area treated. Be sure to check spreader at the beginning of the application; adjust spreader if necessary.

Broadcast Spreaders: For best results, apply in a circular path starting on the outside and working toward the center. A little overlap of product will ensure complete coverage. (directional diagram)

Drop Spreaders: First, apply 2 border strips along the edge of each end of the lawn. Then apply product along the length of the lawn, shutting off the spreader before turning as you reach the edge of the border strips. (directional diagram)

To determine how much you need, multiply the length of your lawn by its width. This equals your total square footage. Deduct any non-lawn areas (house, gardens, etc.) One bag covers 5,000 sq. ft.

_____ Length (Property Diagram)
x _____ Width
= _____ Total Sq. Ft.
- _____ Non-lawn areas
= _____ Total sq. ft. coverage you need

Spreader settings are approximate. Differences may occur due to condition of spreader, speed at which applied, and roughness of area treated. Be sure to check spreader at the beginning of the application; adjust spreader if necessary.
