OFFICE OF
PREVENTION, PESTICIDES AND
TOXIC SUBSTANCES

SUBJECT: Label Amendment Submissions of 11/22/93 in Response to PR Notice 93-7
EPA Reg. No.: SEE ATTACHED 9198-51

Dear Registrant:

The labeling cited above and submitted in connection with registration under the Federal Insecticide, Fungicide, and Rodenticide Act, as amended, successfully **REMOVES THE PRODUCT FROM THE SCOPE** of PR Notice 93-7 once the comments (if any) on the attached sheet are addressed. Other than the alterations (if any) listed on the attached sheet, no further alterations to the labeling are necessary to reflect the requirements of the Worker Protection Standard.

Since your amendment proposes to delete uses directly and/or to delete uses implicitly through the use of exclusionary statements), the Agency will publish in the Federal Register a notice of receipt of your amendment to delete uses, as required by section 6(f)(1) of FIFRA. The Agency will defer action for 90 days from the date of the Federal Register notice to give affected minor users an opportunity to try to persuade you to retain the uses(s). When the comment period has expired, the Agency will approve the amendment unless you have withdrawn it, and stamp the amended labeling "accepted." Your stamped-accepted labeling will then be sent to you.

As described in Supplement A of PR Notice 93-11 (self-verification option), you may sell and distribute product bearing the submitted labeling before you receive a copy of your stamped-accepted labeling. Note that your registration is not amended until the comment period required by section 6(f)(1) of FIFRA has expired and the Agency has approved the amendment. Therefore, you may withdraw your proposed amendment at any time during the comment period and until you receive your stamped-accepted labeling.

Sincerely,

James Tompkins, Deputy Chief
Registration Support Branch
Registration Division (7505W)

PRECAUTIONARY STATEMENTS

Hazards to Humans and Domestic Animals.

CAUTION

Harmful if swallowed. Avoid contact with skin eyes and clothing. Wash thoroughly after using. Avoid breathing dust. Do not contaminate water for irrigation or domestic purpose. Do not contaminate feed, foodstuffs ponds. Do not store near seed, other fertilizer, insecticides or fungicides. Do not apply to vegetable crops. Do not hand spread.

ENVIRONMENTAL HAZARDS

This product is toxic to fish. Do not apply directly to water or wetland. Do not contaminate water by disposing of equipment washings. Drift of dust may cause injury to nearby susceptible plants.

Andersons "Two in One" has a selective herbicide for the pre-emergent control of crabgrass, annual bluegrass (Poa Annuua), goosegrass and other annual grasses in established:

- | | |
|-----------------------|--------------------|
| Bluegrass (perennial) | Bermudagrass |
| Ryegrass (perennial) | Centipedegrass |
| Fescue | St. Augustinegrass |
| Bahiagrass | Zoysiagrass |

7

GENERAL INFORMATION

Andersons "Two in One" Lawn Food Plus Crabgrass Preventer has these advantages:

- 1) Convenient and Economical - Anderson "Two in One" Lawn Food Plus Crabgrass Preventer can be used effectively in a rotary type spreader as well as a drop type spreader.
- 2) Good Safety Margin - Applied as directed will not injure perennial Bluegrass, perennial Ryegrass, Fescue, Bermudagrass, Zoysiagrass, St. Augustinegrass, Centipede and Bahiagrass. Do not apply to new lawns started the previous fall.
- 3) Establishes a Weed Control Zone - Andersons "Two In One" establishes a weed control zone by killing certain weed seeds as they germinate.
- 4) Weeds Controlled - Application prior to weed germination will prevent smooth and hairy crabgrass, annual bluegrass (Poa Annua), goosegrass (Silver crabgrass or crowstool) watergrass (barnyardgrass) and yellow and green foxtail.
- 5) Feeds Your Lawn - Andersons "Two In One" feeds your lawn with nitrogen, phosphorous and potash.

DIRECTIONS FOR USE

It is a violation of Federal Law to use this product in a manner inconsistent with its labeling. *Should be "lawy"*

Not for use on plants being grown for sale or other commercial use as sod, or for commercial seed production, or for research purposes.

WHEN TO APPLY

For Crabgrass Control - Apply in the spring before crabgrass germinates. Reseeding should be delayed for 90 to 120 days after application. To insure satisfactory reseeding results after using a pre-emergence chemical, the amount of seed should be increased.

For Poa Annua (Annual Bluegrass) Control - Apply late to early fall (mid-September) prior to annual bluegrass (Poa Annua and fine-leaved fescues). Reseeding should be delayed 12 to 16 weeks after application.

HOW TO APPLY

Apply Andersons "TWO IN ONE" LAWN FOOD PLUS CRABGRASS PREVENTER evenly over the turf area without skips or misses. A more uniform application can be made by spreading half the required amount of this product over the area, and then applying the remaining half at right angles or crosswise. Both drop-type and rotary-type spreaders may be used to apply.

Listed below are several suggested spreader settings. These should serve only as initial starting points for calibration since all spreaders will vary in their operation depending on the age, condition, particular model, and speed of operation.

SPREADER SETTINGS

(AVAILABLE AT FINAL PRINTING)

STORAGE AND DISPOSAL

Do not contaminate water, food, or feed by storage and disposal. Keep container closed and away from food, feedstuffs and domestic water supplies. PESTICIDE DISPOSAL: Securely wrap original container in several layers of newspaper and discard in trash. CONTAINER DISPOSAL: Do not reuse bag. Discard bag in trash.

WARRANTY

MANUFACTURER Warrants that this product (1) conforms to the ingredient statement on the label and (2) is reasonably fit for the purposes set forth in the Directions for Use. EXCEPT AS SO WARRANTED, THE PRODUCT IS SOLD AS IS. MANUFACTURER MAKES NO OTHER WARRANTY EXPRESS OR IMPLIED.

The manufacturer's directions regarding use of this product are based upon tests believed to be reliable. All statements made concerning this product apply only when used as directed, under normal use conditions. FOLLOW DIRECTIONS CAREFULLY. Timing and method of application, weather and crop conditions, mixture with other chemicals not specifically recommended and other influencing factors in the use of this product are beyond the control of the manufacturer. Buyer assumes all risks of use, storage or handling of this product.
