Storage And Disposal ~ 12 pt.

Do not reuse container. Wrap container and put in trash collection. Do not store near seed or products used on turf. Avoid prolonged exposure to sunlight before use. Wastes resulting from the use of this product may be disposed of on site or at an approved waste disposal facility.

When To Apply: Early application is best for easy weed control all season long. Or, apply any time around shrubs, trees and established plants. Allow ten weeks after applying before planting seeds.

How To Apply: Since Easy Weeder Flower and Garden Weed Preventer works by preventing weed seed germination, any existing weeds must be removed before applying. Avoid over-application to prevent carryover problems with sensitive plants the following season. Should not be used in enclosed areas.

Established Plants, At Least 2"-3" Tall: Flowers, listed vegetables, ornamentals and trees: sprinkle on soil surface (wearing gloves or with a spreader) to match this picture. 1 oz. per 10 sq. ft.
Before Planting: Prior to transplanting 2"-3" listed flowers and vegetables, or ten weeks before planting listed vegetable seed: apply as shown on medium loam and mix in. This equals 1 lb. per 960 sq. ft. See chart below for light or heavy loam. Mix into soil with rake or rototiller 1"-3" deep. Then place transplant. Do not apply after transplanting or less than ten weeks prior to planting vegetable seeds.

Application Rates For Mixing Into Soil

Soil Texture Rates*	Light (Sandy)	Medium	Heavy (Clay)
