Subject: Label Notifications for Pesticide Registration Notice 2007-4

Dear Ms. Walters:

The Agency is in receipt of your Applications for Pesticide Notification under Pesticide Registration Notice (PRN) 2007-4 dated June 5, 2008 for:

- | | |
|----------------------------------|---|
| EPA Registration 9198-60 | Easy Weeder Flower and Garden Weed Preventer |
| EPA Registration 9198-149 | The Andersons Easy Weed 'n Green |

The Registration Division (RD) has conducted a review of this request for applicability under PRN 2007-4 and finds that the label changes requested falls within the scope of PRN-2007-4. The label has been date-stamped "Notification" and will be placed in our records.

Please be reminded that 40 CFR Part 156.140(a)(4) requires that a batch code, lot number, or other code identifying the batch of the pesticide distributed and sold be placed on nonrefillable containers. The code may appear either on the label (and can be added by non-notification/PR Notice 98-10) or durably marked on the container itself.

If you have any questions, please contact me directly at 703-305-6249 or Nicole Williams of my staff at 703-308-8893.

Sincerely,

GENERAL INFORMATION

What Easy Weeder Does:

Easy Weeder prevents many broadleaf and grass weeds from germinating around listed flowers, bulbs, vegetables, roses, trees, shrubs and ground covers. It provides all-season weed control, eliminating difficult and time consuming hand weeding. Without weeds to compete for space, plant nutrients and water, your valuable plants can grow larger, stronger, and healthier. Do not apply to Ajuga, Myrtle or Pachysandra as injury may result.
