OFFICE OF
PREVENTION, PESTICIDES AND
TOXIC SUBSTANCES

SUBJECT: Label Amendment Submissions of 11/22/93 in Response to PR Notice 93-7
EPA Reg. No.: SEE ATTACHED 9198-65

Dear Registrant:

The labeling cited above and submitted in connection with registration under the Federal Insecticide, Fungicide, and Rodenticide Act, as amended, successfully **REMOVES THE PRODUCT FROM THE SCOPE** of PR Notice 93-7 one the comments (if any) on the attached sheet are addressed. Other than the alterations (if any) listed on the attached sheet, no further alterations to the labeling are necessary to reflect the requirements of the Worker Protection Standard.

Since your amendment proposes to delete uses directly and/or to delete uses implicitly through the use of exclusionary statements), the Agency will publish in the Federal Register a notice of receipt of your amendment to delete uses, as required by section 6(f)(1) of FIFRA. The Agency will defer action for 90 days from the date of the Federal Register notice to give affected minor users an opportunity to try to persuade you to retain the uses(s). When the comment period has expired, the Agency will approve the amendment unless you have withdrawn it, and stamp the amended labeling "accepted." Your stamped-accepted labeling will then be sent to you.

As described in Supplement A of PR Notice 93-11 (self-verification option), you may sell and distribute product bearing the submitted labeling before you receive a copy of your stamped-accepted labeling. Note that your registration is not amended until the comment period required by section 6(f)(1) of FIFRA has expired and the Agency has approved the amendment. Therefore, you may withdraw your proposed amendment at any time during the comment period and until you receive your stamped-accepted labeling.

Sincerely,

James Tompkins, Deputy Chief
Registration Support Branch
Registration Division (7505W)

CRABGRASS PREVENTER
with Tupersan

KEEP OUT OF REACH OF CHILDREN

PRECAUTIONARY STATEMENTS

CAUTION

HAZARDS TO HUMANS AND DOMESTIC ANIMALS

Harmful if swallowed. Avoid contact with skin, eyes, and clothing. Avoid breathing dust. Do not contaminate water used for irrigation or domestic purposes. Do not contaminate feed, foodstuff, or ponds. Do not store near seed, other fertilizers, insecticides, or fungicides. Do not apply to vegetable crops. DO NOT HAND SPREAD.

ENVIRONMENTAL HAZARDS

This product is toxic to fish. Keep out of lakes, streams and ponds. Do not contaminate water when disposing of equipment washwaters. Drift of dust may cause injury to nearby susceptible plants.

GENERAL INFORMATION

LOFTS CRABGRASS PREVENTER is formulated to prevent the growth of both smooth and hairy crabgrass in either a newly seeded or well established lawn. It will also aid in controlling certain other annual weed grasses such as Foxtail and Barnyard grass. LOFTS CRABGRASS PREVENTER will not damage most of the commonly used lawn grasses even if applied at time of seeding.

IMPORTANT:

Use only on bluegrass, fescue, redtop, smooth brome, perennial ryegrass, orchardgrass, and the following strains of bentgrass: Penncross, Seaside, Astoria, Nimisila, C-1, C-7, and C-19. Do not use on other bentgrass strains nor on Bermudagrass, as injury to turf may result. Treatment will not control annual bluegrass (*Poa annua*), clover, or most broadleaf weeds.

DIRECTIONS FOR USE

It is a violation of Federal law to use this product in a manner inconsistent with its labeling.

Not for use on plants being grown for sale or other commercial use, or for commercial seed production, or for research purposes. For use on plants intended for aesthetic purposes or climatic modification and being grown in ornamental gardens or parks, or on golf courses or lawns.

Apply to the lawn during the spring of the year prior to the germination of crabgrass. Best results are obtained when application is made approximately 2-3 weeks before crabgrass appears. It is, therefore, suggested that application be avoided during February or early March.

NEWLY SEED LAWNS

1. Apply contents evenly over 4,000 square feet immediately after seeding (2 1/2 lbs. per 1,000 sq ft.). For best results repeat applications in 4 weeks.
2. Provide sufficient moisture to insure germination of new grass seed.

ESTABLISHED, OVERSEEDED OR PATCHED LAWNS

1. Apply contents evenly over 2,000 square feet immediately after seeding (5 lbs. per 1,000 sq. ft.).
2. For best results, the lawn should be watered thoroughly within 3 days after application.
3. Before application, lawn should be raked to remove extraneous material and insure uniform application. In order to obtain expected results, LOFTS CRABGRASS PREVENTER should be evenly applied with no skips or misses.

NOTE-DO NOT RAKE LAWN or DISTURB SOIL SURFACE after application. Application of Lofts Turf Food is recommended in the Summer and Fall.

SUGGESTED SPREADER SETTINGS

(AVAILABLE FOR FINAL PRINTING)

These suggestions are for your guidance, and are in no sense a guarantee of exact application. Age, condition of spreader, speed of operation and roughness of terrain can cause variations in the rates applied.

Be sure to calibrate your spreader with each application.

STORAGE AND DISPOSAL

Do not contaminate water, food, or feed by storage and disposal. Keep container closed and away from food, feedstuffs and domestic water supplies
PESTICIDE DISPOSAL: Securely wrap original container in several layers of newspaper and discard in trash. CONTAINER DISPOSAL: Do not reuse bag. Discard bag in trash.

WARRANTY

MANUFACTURER warrants that this product (1) conforms to the ingredient statement on the label and (2) is reasonably fit for the purposes set forth in the Directions for Use. EXCEPT AS SO WARRANTED, THE PRODUCT IS SOLD AS IS. MANUFACTURER MAKES NO OTHER WARRANTY EXPRESS OR IMPLIED.

The manufacturer's directions regarding use of this product are based upon tests believed to be reliable. All statements made concerning this product apply only when used as directed, under normal use conditions. FOLLOW DIRECTIONS CAREFULLY. Timing and method of application, weather and crop conditions, mixture with other chemicals not specifically recommended and other influencing factors in the use of this product are beyond the control of the manufacturer. Buyer assumes all risks of use, storage or handling of this product.
