Dear Ms. Walters:

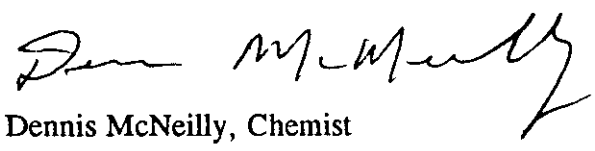

The label referred to above, submitted in connection with the registration under the Federal Insecticide, Fungicide, and Rodenticide Act (FIFRA), as amended, is acceptable, provided you incorporate the Agency's conditions as enumerated in this letter below and submit one copy of your final printed label prior to releasing the product for shipment.

- 1) The added note found on page 1 and 2 of the label, "(note: weight will vary per end use product, but will not be less than 25 lbs.)", must be removed from the label. All container sizes must be specified on the EPA Form 8570-1 (Section III, Box #4). The Agency notes that this product will be marketed in container sizes no smaller than 25 lbs. Should this product be sold in containers smaller than 25 lbs it would need to be classified as a Restricted Use Pesticide
- 2) There is a typo on page 3 of the label, under "Surface Insect Control", change "June beetles" to "June beetles".
- 3) Under the "Suggested Spreader Settings" the registrant must include on the revised product label the list or table of suggested spreader settings.

Submit one copy of the revised final printed label before releasing the product for shipment. If the conditions enumerated above are not complied with, the registration will be subject to cancellation in accordance with FIFRA Section 6(e).

If you have questions regarding this label review, please contact Marianne Lewis at (703) 308-8043 or electronically at Lewis.Marianne@EPA.gov.
