Fertilizer Analysis

Total Nitrogen (N) Not less than 15.04%
Nitrogen derived from Urea

MA 806, NO. 2117-601-9159 EST. NO. 4593-06-2

USES: Bermudagrass, Chickweed, Dandelion, Smartweed, Spotted Tail, Clover, Sorgho, Johnsongrass, etc. and many other broadleaf weeds.

USE ON: Bahia, Bermuda, Bluegrass, Fescue, Rye or Ryegrass lawn.

DIRECTIONS FOR USE:
It is a violation of Federal law to use this product in a manner inconsistent with its labeling.

HOW TO USE:
1. Spray at any time during the growing season when weeds are actively growing. 2. On new lawns, wait until the grass has reached a height of 2" before making an overall spray treatment. Wait 1 week before putting new grass seed or sod down in the bare spots. 3. Good weed control may result if spray is applied during drought or just before rain. 4. For best results, use 1 to 2 days before treating. 5. Do not water lawn within 24 hours after treatment.

HOW TO APPLY:
Shake well before applying.

Connect spray nozzle to hose. Squeeze bottle top and spray bottle onto nozzle. Turn the on-off switch on top of the nozzle right or left to ON. Turn on the water at the tap. When ready to treat, turn the on-off switch to the center ON position. The water mixes automatically with the GREEN SWEEP at the proper ratio. Walk and spray at a slow steady pace. Watch at least one bottle indicate square feet covered in 1,000's.

USE PRECAUTIONS:
Do not allow spray to drift to vegetables, flowers, ornamental plants, shrubs, trees and other desirable plants since injury may result. Do not spray where ground is watering from dormancy, or where grass is only 2-3" high. Do not spray when the temperature is only 45°F. Do not use on safety areas 3-4 weeks after application. Do not use on carpetgrass, dichondra, St. Augustine, Centipede, closely mowed bentgrass, and other desirable species are present. Do not spray courts of tennis and basketball. Do not exceed specified dosage for any area. Be particularly careful about drift to trees and other ornamental species.

STORAGE: Keep from freezing. Store in original container in a locked storage area inaccessible to children. Do not store near food or feedstuffs. Do not store near other fertilizers, insecticides, fungicides, or acids.

PRODUCT DISPOSAL: Securely wrap original container with used product in several layers of newspaper and discard in trash.

CONTAINER DISPOSAL: Do not reuse empty container for any other product or use. Wash thoroughly before discarding in trash.

UNDESIRABLE ORGANISMS RESISTANT TO GREEN SWEEP & FEED:

CAUTION: Harmful if swallowed. Avoid contact with eyes, skin, or clothing. In case of contact, immediately flush eye or skin with plenty of water. If irritation develops, get medical attention. Avoid contamination of food or feedstuffs.

ENVIRONMENTAL PRECAUTIONS: Do not apply directly to water. Do not apply when weather conditions favor drift from target area. Do not contaminate water by cleaning of equipment or disposal of wastes. Do not contaminate domestic or irrigation waters.

NOTICE: Seller warrants that this product conforms to the logistical statement on the label. Since conditions of use, such as weather, compatibility with other chemicals, and condition of application equipment will vary, seller makes no claim other than those stated on this label.
