Dear Ms. Walters:

Subject: Andersons Golf Products Fungicide VII
 EPA Reg. No. 9198-187
 Re: Label Amendment
 Your submission dated April 23, 2002

The amendment referred to above, submitted in connection with registration under the Federal Insecticide, Fungicide, and Rodenticide Act (FIFRA), is acceptable provided that you make the labeling changes listed below:

1. In the "If swallowed" statement under "First Aid" please add the word "immediately" after "doctor" so the statement reads, "Call a poison control center or doctor immediately for treatment advice...."
2. In the "If on skin" statement under "First Aid" please add the words "or clothing" after "skin" so the statement reads, "If on skin or clothing...."
3. In the "If inhaled" statement under "First Aid" please add the word "further" after "for" so the statement reads, "...Call a poison control center or doctor for further treatment advice."
4. For the "Metric coverage" under the "Suggested Spreader Settings" box, please change "14.86 kg" to "13.24 kg", "1022 m²" to "2044 m²" and "511 m²" so the statement reads, "Metric coverage: 13.24 kg treats 2044 m² at the RECOMMENDED RATE and 1022 m² at the DOUBLE RATE"

5. Add the following groundwater statement that applies to all triadimefon products:

"This chemical demonstrates the properties and characteristics associated with chemical detected in ground water. The use of this chemical in areas where soils are permeable, particularly where the water table is shallow, may result in ground water contamination."

Please submit one (1) copy of your final printed labeling before you release the product for shipment. If these conditions are not complied with, the registration will be subject to cancellation in accordance with FIFRA section 6(e). Your release for shipment of the product bearing the amended labeling constitutes acceptance of these conditions.

A stamped copy of the label is enclosed for your records.

Sincerely yours,

15/
