JUN 01 2012

Subject Notification per PRN 98-10 Add EPA establishment # for End-Use Product  
Submission date 4/18/12  
Product Name Andersons Golf Products Fertilizer Plus Fungicide VIII  
EPA Reg No 9198-228  
Decision Number 464759

Dear Registrant

The Agency is in receipt of your Application for Pesticide Notification under Pesticide Registration Notice (PRN) 98-10 dated 4/18/2012 for the above product. The Registration Division (RD) has conducted a review of this request for its applicability under PRN 98-10 and finds that the action(s) requested fall within the scope of PRN 98-10. The label submitted with the application has been stamped "Notification" and will be placed in our records.

If you have questions concerning this letter, please call Banza Djapao at 703-305-7269 or via email at [djapao\\_banza@epa.gov](mailto:djapao_banza@epa.gov), or you may call me at 703-305-6784.

Sincerely,

A handwritten signature in black ink, appearing to read "Marcel A. Howard".

Marcel A. Howard  
Acting Product Manager 20  
Fungicide Branch  
Registration Division (7504P)

RE Notification of Minor Label Changes

SUBJECT Andersons Golf Products Fertilizer Plus Fungicide VIII  
EPA Reg No 9198 228

Per PR Notice 98 10 enclosed is EPA Form 8570-1 an application notifying the Agency of a revision to the labeling for the subject registration One copy of the revised labeling is enclosed with the additions underlined and marked in blue Changes are as follows

1 ) We have added the following Establishment Number

51036 GA 001

No other changes were made

If there are any questions or comments regarding this notification please contact me

Sincerely

# Andersons Golf Products Fertilizer Plus Fungicide VIII

## NOTIFICATION

### Optional

- Broad spectrum fungicide
- Broad spectrum fungicide utilizing two popular active ingredients
- Controlled release nitrogen
- Ideal for grow-ins
- Combines two synergistic active ingredients that provide both fast-acting and sustained disease control by utilizing both foliage activity and root uptake of the active ingredients
- Controls brown patch dollar spot red thread pink snow mold (*Microdochium nivale*) leaf spot / melting out anthracnose
- Suppresses summer patch necrotic ring spot and Fusarium blight
- Supplies a limited feeding of controlled-release nitrogen without enhancing disease susceptibility of turf with repeat applications see label for brown patch exception
- Choice of application rates depending upon type and severity of infestation and degree of protection desired
- Blended small particle methylene urea fertilizer base for excellent spreadability

### PRECAUTIONARY STATEMENTS

**Hazards to Humans and Domestic Animals** CAUTION Harmful if absorbed through the skin causes moderate eye irritation avoid contact with eyes skin or clothing

### FIRST AID

**If in eyes** Hold eye open and rinse slowly and gently with water for 15-20 minutes Remove contact lenses if present after first 5 minutes then continue rinsing eye Call a poison control center or doctor for treatment advice

**If on skin** Take off contaminated clothing Rinse skin immediately with plenty of water for 15-20 minutes Call a poison control center or doctor for treatment advice

**If swallowed** Call a poison control center immediately for treatment advice Have person sip a glass of water if able to swallow Do not induce vomiting unless told to do so by a poison control center or doctor Do not give anything by mouth to an unconscious person

**If inhaled** Move person to fresh air If person is not breathing call 911 or an ambulance then give artificial respiration preferably by mouth-to-mouth if possible Call a poison control center or doctor for further treatment advice

Have the product container or label with you when calling poison control center or doctor or going for treatment

### Personal Protective Equipment

Loaders applicators and other handlers must wear Long-sleeved shirt and long pants chemical-resistant gloves [such as Barrier Laminate Butyl rubber Nitrile rubber Neoprene rubber polyvinyl chloride or Viton] and shoes plus socks

Follow manufacturer's instructions for cleaning/maintaining PPE If no such instructions for washables use detergent and hot water Keep and wash PPE separately from other laundry

### User Safety Recommendations

Users should

- Wash hands before eating drinking chewing gum using tobacco or using the toilet
- Remove clothing immediately if pesticide gets inside Then wash thoroughly and put on clean clothing
- Remove PPE immediately after handling this product Wash the outside of gloves before removing As soon as possible wash thoroughly and change into clean clothing

6/9

**Environmental Hazards** This pesticide is toxic to fish and invertebrates. This chemical can contaminate surface water through aerial and ground applications. Under some conditions, it may also have a high potential for runoff into surface water after application. These include poorly draining or wet soils with readily visible slopes toward adjacent surface waters, frequently flooded areas, areas overlaying extremely shallow ground water, areas with in-field canals or ditches that drain to surface water, areas not separated from adjacent surface waters with vegetated filter strips, and areas over-laying tile drainage systems that drain surface water.

Do not apply directly to water, to areas where surface water is present or to intertidal areas below the mean high water mark. Runoff may be hazardous to aquatic organisms in neighboring areas. Cover, incorporate, or clean up spills. Do not contaminate water when disposing of equipment washwaters or rinsate.

## DIRECTIONS FOR USE

It is a violation of federal law to use this product in a manner inconsistent with its labeling.

Not for use on turf being grown for sale or other commercial use as sod, or for commercial seed production, or for research purposes.

Do not enter or allow others to enter the treated area until dusts have settled.

## GENERAL INFORMATION

For use on turfgrass areas consisting of bentgrass, bluegrass, *Poa annua*, bermudagrass, St. Augustinegrass, ryegrass, fine fescue or tall fescue, or mixtures where these grasses predominate.

Controls these diseases while fertilizing turfgrasses:

red thread  
dollar spot  
brown patch  
pink snow mold (*Microdochium nivale*)  
leaf spot / melting out  
anthracnose

Suppression of these diseases:

summer patch  
necrotic ring spot  
Fusarium blight

## APPLICATION INSTRUCTIONS

**For prevention** or control of dollar spot, leaf spot / melting out, red thread, pink snow mold (*Microdochium nivale*) and brown patch (light to moderate disease), apply at the NORMAL RATE when disease activity is expected or noted. Repeat at two to three week intervals to prevent disease through the season. For longer intervals between applications (30 days) use the DOUBLE RATE. For more uniform particle distribution at the DOUBLE RATE, use a two-pass application in an alternate pattern at the NORMAL RATE.

**For suppression** of pink snow mold (*Microdochium nivale*) in areas where snow cover occurs, apply to dry foliage at the NORMAL RATE prior to the first snow and again immediately after the final snow melts in the spring. Repeat in mid-winter when turf is free of snow with non-fertilizer fungicide product. For best results, use this product in a program with other fungicides, such as Andersons Golf Products FFI Fertilizer with 10-0-14 with PCNB and Fungicide IX.

Back Panel

**To control** severe leaf spot / melting out dollar spot brown patch and red thread apply at the DOUBLE RATE every 14-30 days until the disease is brought under control then revert back to the preventative schedule For more uniform particle distribution at the DOUBLE RATE use a two-pass application in an alternate pattern at the NORMAL RATE

**For suppression of summer patch diseases** apply at the DOUBLE RATE every 30 days (beginning in late spring to early summer) For more uniform particle distribution at the DOUBLE RATE use a two-pass application in an alternate pattern at the NORMAL RATE Three to five applications may be necessary for season-long suppression Water immediately after application and keep turf from becoming drought stressed by watering (1 inch) weekly Under extreme hot weather conditions on sandy and clay soils additional watering may be required

**To control severe brown patch infestations** use a non-fertilizer fungicide such as Andersons Golf Products Systemic Fungicide, Fungicide X or Fungicide VII to limit the amount of fertilizer applied This does not apply for the suppression of summer patch and red thread Once the brown patch is controlled prevent further infestations by following up with an Andersons Golf Products fungicide or combination fertilizer plus fungicide product

### GENERAL PRECAUTIONS AND RESTRICTIONS

Not for homeowner use For use by individuals/firms licensed or registered by the state to apply ornamental or turf pest control products

Use of this product at residential sites is prohibited

Not for use on turf being grown for sale or other commercial use as sod

Apply to moist or dry foliage To avoid product pickup lightly irrigate treated areas after application

On short cut bentgrass (less than  $\frac{3}{4}$  inch) when temperatures are above 80°F apply only to dry foliage

Do not expose product to atmospheric moisture For example after application fold down and seal top of the bag This is particularly important under humid conditions

Use only in clean dry spreader Do **not** leave product in spreader after application

Except for use on golf courses if applying this product adjacent to a water body such as a lake reservoir, river permanent stream marsh or natural pond estuary or commercial fish pond there must be at least a 25-foot vegetative buffer strip between the water body and the point of application

For golf courses only do not apply to turf cut higher than 1 on golf holes where water bodies are present

Do not apply this product when the wind direction is toward aquatic areas

Do not apply this product using belly grinder or other handheld application equipment

Do not make more than 6 applications per year

Use Site	Maximum Single Application Rate		Maximum Annual Application Rate		Minimum Retreatment Interval

Public areas (parks athletic fields schools and day care centers)	2 72 1 35	3 05	10 88 5 41	12 18	14 days

### Storage and disposal

Do not contaminate water food or feed by storage or disposal

PESTICIDE STORAGE Store in a cool clean dry place Reseal opened bag by folding the top down and securing Do not store at temperatures exceeding 120°F

PESTICIDE DISPOSAL Wastes resulting from the use of this product may be disposed of on site or at an approved waste disposal facility

CONTAINER DISPOSAL Nonrefillable container Do not reuse or refill this container Offer for recycling if available Completely empty bag into application equipment Then dispose of empty bag in sanitary landfill or by incineration or if allowed by State and local authorities by burning If burned stay out of smoke
