

ALL CLEAR ALGAE KILL

- A most effective algacide.
- Will not cause cloudiness in water.
- Will not add scale forming minerals in the water.

DIRECTIONS

WHEN ALGAE APPEARS ON BOTTOM OF POOL. Adjust the pH of the pool water to 7.4 to 7.6. Turn off filter and wait until water is calm enough to see spot on bottom. For best results brush the black algae spots with a stiff bristle or wire brush prior to treatment. Pour ALL CLEAR ALGAE KILL directly over the spot and allow it to settle to the bottom. Use enough ALL CLEAR ALGAE KILL to completely cover the algae spot. Allow ALL CLEAR ALGAE KILL to dissolve for a period of 60 minutes, then brush algae away.

WHEN POOL IS INFESTED WITH BLACK ALGAE. Adjust the pH and brush as explained above. Add one pound of ALL CLEAR ALGAE KILL per 4,000 gallons of pool water and broadcast it over entire pool surface all at one time. Shut down pump for 24 hours. Follow this treatment with a thorough brushing. If a few traces of black algae remain, the above process should be repeated.

WARNING

This product is toxic to fish. Treated effluent should not be discharged where it will drain into lakes, streams, ponds or public water. Do not contaminate water by cleaning of equipment or disposal of wastes.

Apply this product only as specified on this label.

WARNING

DO NOT USE IN VINYL LINER OR PAINTED POOLS

ALGAE KILL

ACTIVE INGREDIENT

Trichloro-s-Triazinetrione 100%
Available Chlorine 90%

NET WT. 32 OZ. (2 LBS.)

EPA Reg. No. 9215-3-AA

DANGER

KEEP OUT OF REACH OF CHILDREN
SEE FIRST AID AND OTHER PRECAUTIONS ON SIDE PANEL

DANGER

KEEP OUT OF REACH OF CHILDREN

Corrosive causes eye damage. Do not get in eyes or on skin. Do not breathe dust. May cause skin, nose and throat irritation. Wear safety goggles, dust respirator and protective clothing when handling. May be fatal if swallowed. May cause burns to broken skin.

FIRST AID

In case of personal contact remove excess material and flush skin or eyes with cold water for at least 15 minutes. For eyes get medical attention. Clean contaminated clothing before reuse. If swallowed, feed grain or cooked cereal followed by olive oil or cooking oil. Call a Physician immediately.

DANGER

Strong oxidizing agent. Moisture contamination may liberate irritating and hazardous chlorine containing gases. Decomposes at 350-475 °F with liberation of harmful gases. In case of decomposition if possible isolate container in open air or well ventilated area. Flood with large volume of water if necessary. Mix only with water. Do not mix with other pool chemicals. Use only dry clean measuring utensils. Store in a cool dry place. Keep closed when not being used. Do not reuse container. Rinse empty container thoroughly with water and discard.
