

**CLEAR-ALL 100A**  
POOL CHLORINE

- A most effective germicide and algicide
- Will not cause cloudiness in water
- Will not add scale forming minerals in the water.
- Will maintain your pool crystal clear.

The control of pH is greatly simplified using Clear All 100A Pool Chlorine. In fact you will require from 1/2 to 1 times the amount of acid usually required. Clear All 100A Pool Chlorine provides a more stable form of chlorine for easier maintenance of an effective chlorine residual in pool water. For outstanding action it requires less storage space and maintains constant strength regardless of storage time. It is economical to use in that after the pool is stabilized with Clear All 100A Pool Chlorine less acid.

**WARNING**  
DO NOT PUT DIRECTLY INTO VINYL LINER OR PAINTED SURFACES

**INSTRUCTIONS** When starting up a new pool, a preliminary chlorine demand and to establish a chlorine residual of 1.0 ppm to 1.5 ppm is required. To accomplish this add 2 lbs. Clear All 100A Pool Chlorine per 1,000 gallons of pool water. The next morning, add 1/2 lb. Clear All 100A Pool Chlorine per 1,000 gallons to stabilize the pool.

Clear All 100A Pool Chlorine should be added daily as needed to maintain a residual of 1.0 to 1.5 ppm per 1,000 gallons of pool water to maintain a chlorine residual of 1.0 to 1.5 ppm. A determination of a chlorine residual should be maintained between .75 and 1.0.

A shock treatment should be made every week during hot weather or after heavy rain. Use 1/2 lb. Clear All 100A Pool Chlorine per 1,000 gallons of pool water. For the shock treatment use 2 lbs. of Clear All 100A Pool Chlorine per 1,000 gallons of pool water. Swimmers should not be permitted in the pool after the shock treatment until the chlorine residual has reached the 1.0 ppm to 1.5 ppm range.

Keep in mind that a slight turbidity may be obtained in the event of heavy accumulation of dust and dirt caused by atoms of water being bathed. This will require additional dosage as needed to maintain the chlorine residual between 1.0 and 1.5 ppm.

**DANGER:**  
KEEP OUT OF REACH OF CHILDREN.  
DO NOT USE WITH OTHER POOL CHEMICALS AND WATER

**ACCEPTED**  
9215-4  
FEB 20 1975  
UNDER THE FEDERAL INSECTICIDE FUNGICIDE AND RODENTICIDE ACT FOR ECONOMIC POISON REGISTERED UNDER NO.

**DANGER**  
KEEP OUT OF REACH OF CHILDREN  
Corrosive causes eye damage. Do not get in eyes or on skin. Do not breathe dust. May cause skin, nose and throat irritation. Wear safety goggles, dust respirator and protective clothing when handling. May be fatal if swallowed. May cause burns to broken skin.

**WARNING**  
The product is highly toxic. Treat as a poison. Water should be used to dilute. Do not use in areas where children or pets are present. Do not use in areas where food is stored. Do not use in areas where food is prepared. Avoid the eyes and nose when handling.

**FIRST AID**  
If inhaled, remove to fresh air. If in eyes, flush with water. If on skin, wash with soap and water. If swallowed, do not induce vomiting. Seek medical attention.

**DANGER**  
Strong oxidizing agent. Moisture reacts with it. Avoid contact with skin and eyes. Avoid contact with clothing. Do not use in areas where children or pets are present. Do not use in areas where food is stored. Do not use in areas where food is prepared. Avoid the eyes and nose when handling.
