US ENVIRONMENTAL PROTECTION AGENCY OFFICE OF PESTICIDES PROGRAMS REGISTRATION DIVISION (75-767) WASHINGTON, DC 20460	EPA REGISTRATION NO. 9215-6	DATE OF ISSUANCE JUN 30 1994
	TERM OF ISSUANCE	
NOTICE OF PESTICIDE: <input type="checkbox"/> REGISTRATION <input checked="" type="checkbox"/> REREGISTRATION (Under the Federal Insecticide, Fungicide, and Rodenticide Act, as amended)	NAME OF PESTICIDE PRODUCT  All Clear Chlorinating Tablets	
NAME AND ADDRESS OF REGISTRANT (Include ZIP code)		
Aqua Tri 17872 Mitchell Irvine, CA 92714		
NOTE: Changes in labeling formula differing in substance from that accepted in connection with this registration must be submitted to and accepted by the Registration Division prior to use of the label in commerce. In any correspondence on this product always refer to the above U.S. EPA registration number.		
On the basis of information furnished by the registrant, the above named pesticide is hereby Registered/Reregistered under the Federal Insecticide, Fungicide, and Rodenticide Act.		
A copy of the labeling accepted in connection with this Registration/Reregistration is returned herewith.		
Registration is in no way to be construed as an indorsement or approval of this product by this Agency. In order to protect health and the environment, the Administrator, on his motion, may at any time suspend or cancel the registration of a pesticide in accordance with the Act. The acceptance of any name in connection with the registration of a product under this Act is not to be construed as giving the registrant a right to exclusive use of the name or to its use if it has been covered by others.		
<p>Based on your response to the Reregistration Eligibility Document, EPA has reregistered the above named product subject to the comments recorded in the succeeding paragraph. This action is taken under the authority of section 4(g)(2)(C) of the Federal Insecticide, Fungicide, and Rodenticide Act, as amended. Reregistration under this section does not eliminate the need for continual reassessment of pesticides. EPA may require submission of data at any time to maintain the registration of your product.</p> <p>Make the following labeling changes before you release the product for shipment:</p> <ol style="list-style-type: none"> <li>1. Revise the precautionary and practical treatment statements in your labeling in accordance with the circled comments in the enclosed Attachment A.</li> <li>2. Revise the first sentence of the Environmental Hazards statement to read: "This product is toxic to fish and aquatic organisms."</li> </ol> <p>A stamped copy of the product label is enclosed for your records.</p>		
<input type="checkbox"/> ATTACHMENT IS APPLICABLE		
SIGNATURE OF APPROVING OFFICIAL		DATE

Submit one copy of the final printed labeling before releasing the product in channels of trade with the revised labeling.

If these conditions are not complied with, the registration will be subject to cancellation in accordance with FIFRA sec. 6(e). Your release for shipment of the product constitutes acceptance of these conditions.

ACCEPTED  
with COMMENTS  
in EPA Letter Dated:

JUN 30 1994

Under the Federal Insecticide,  
Fungicide, and Rodenticide Act as  
amended for the pesticide  
registered under EPA Reg. No.

9215-6

# ALL CLEAR™

## CHLORINATING TABLETS

FOR USE IN TRICHLORO-S-TRIAZINETRIONE FEEDING DEVICES

Controls bacteria and algae

(Approximate weight of each tablet 0.5 oz.)

ACTIVE INGREDIENT:

Trichloro-s-triazinetriene and related isocyanurates ..... 59.2%

INERT INGREDIENTS: ..... .8%

100.0%

Available chlorine ..... 90%

KEEP OUT OF REACH OF CHILDREN

**DANGER:**

SEE STATEMENT OF PRACTICAL TREATMENT (FIRST AID)  
AND OTHER PRECAUTIONS ON SIDE PANEL

NET WT 16 LBS

**BEST AVAILABLE COPY**

**STATEMENT OF PRACTICAL TREATMENT (FIRST AID):** IF SWALLOWED, drink large amounts of water. DO NOT induce vomiting. Avoid alcohol. Call a physician or poison control center immediately. Get medical attention. Avoid alcohol. Never give anything by mouth to an unconscious person. IF ON SKIN, immediately brush off excess chemical and flush with cold water for at least 15 minutes. Remove contaminated clothing. Wash clothing before reuse. If irritation persists, call a physician. IF IN EYES, flush with cold water for at least 15 minutes. Get medical attention. IF INHALED, remove person to fresh air. Call a physician. NOTE TO PHYSICIAN: Probable mucosal damage may contraindicate the use of gastric lavage.

**PRECAUTIONARY STATEMENTS** - Hazard to humans and domestic animals

**DANGER:** HIGHLY CORROSIVE. CAUSES IRREVERSIBLE EYE DAMAGE. CAUSES BURNS TO SKIN. IRRITATING TO NOSE AND THROAT. MAY BE FATAL IF SWALLOWED. Do not get in eyes, on skin or on clothing. Wear goggles or face shield and rubber gloves when handling. Avoid breathing dust or fumes. Remove and wash contaminated clothing before reuse.

**ENVIRONMENTAL HAZARDS** - This product is toxic to fish. Do not discharge effluent containing this product into lakes, streams, ponds, estuaries, oceans or other waters unless in accordance with the requirements of a National Pollutant Discharge Elimination System (NPDES) permit and the permitting authority has been notified in writing prior to discharge. Do not discharge effluent containing this product to sewer systems without previously notifying the local sewage treatment plant authority. For guidance contact your State Water Board or Regional Office of the EPA.

**PHYSICAL OR CHEMICAL HAZARD** - STRONG OXIDIZING AGENT. WILL BURN WITH THE EVOLUTION OF CHLORINE AND EQUALLY TOXIC GASES. CONTACT WITH WATER SLOWLY LIBERATES IRRITATING AND HAZARDOUS CHLORINE-CONTAINING GASES. DECOMPOSES AT 460°F. to 480°F. WITH LIBERATION OF HARMFUL GASES. Mix only with water. Use clean, dry utensils. Do not add this product to any dispensing device containing remnants of any other product. Such use may cause a violent reaction leading to fire or explosion. Contamination with moisture, organic matter, or other chemicals may start a chemical reaction with generation of heat, liberation of hazardous gases, and possible generation of fire and explosion. In case of fire, contamination or decomposition, do not reseal container. If possible isolate container in open air or well ventilated area. Flood with large volumes of water, if necessary.

**PRECAUTION** - Chemical should not come in direct contact with surface of vinyl liner, fiberglass, acrylic, colored plaster or painted pools and spas. Danger, do not pour in skimmer! Do not mix with other chemicals.

**DIRECTIONS FOR USE** - It is a violation of Federal law to use this product in a manner inconsistent with its labelling. When starting up a new pool, superchlorinate to satisfy chlorine demand and to establish a chlorine residual of 1.0 ppm to 1.5 ppm available chlorine. To accomplish this, add 2 oz. ALL CLEAR Swimming Pool Sanitizer per 1,000 gallons of pool water. The next morning add ALL CLEAR Cyanuric Acid to stabilize the pool according to directions given on the label. ALL CLEAR Chlorinating Tablets are designed for use in Trichloro-s-triazinetrione devices. Follow the manufacturer's directions for refilling and adjusting the feed rate for the proper available chlorine level. Test pool water frequently with a suitable test kit and maintain a chlorine residual of 1.0 to 1.5 ppm minimum range of residual chlorine. If the residual chlorine is above 1.5 ppm, adjust the cartridge to the next smaller number. An increase in weather temperature, bather load, or water temperature will cause your pool to use more chlorine. You should increase the feed rate accordingly. If the cartridge is at the maximum setting, the pumping time should be increased to compensate for the increased usage. When the tablets are nearly exhausted, superchlorinate and refill when the chlorine residual of the pool reaches 1.5 ppm. Keep the pH between 7.2 and 7.6 as determined by a suitable test kit. Reentry into treated swimming pools/spas is prohibited above levels of 3 ppm of chlorine.

**STORAGE AND DISPOSAL:** Do not contaminate water, food, or feed by storage or disposal.

**STORAGE** - Store in original container and keep container tightly closed away from heat or open flame. Store in a cool, dry, well ventilated place. Do not allow water to get into container. Keep container off wet floors.

**PRODUCT DISPOSAL** - Pesticide wastes are acutely hazardous. Improper disposal of excess pesticide, spray mixture, or rinsate is a violation of Federal Law. If these wastes cannot be disposed of by use according to label instructions, contact your State Pesticide or Environmental Control Agency, or the Hazardous Waste representative at the nearest EPA Regional Office for guidance.

**CONTAINER DISPOSAL** - Triple rinse (or equivalent). Then offer for recycling or reconditioning, or puncture and dispose of in a sanitary landfill, or incineration, or if allowed by state and local authorities, by burning. If burned, stay out of smoke.

**DRUM WITH LINER** - Completely empty liner by shaking and tapping sides and bottom to loosen clinging particles. Empty residue into application equipment. Then dispose of liner in a sanitary landfill or by incineration if allowed by State and local authorities. If drum is contaminated and cannot be reused, dispose of in the same manner.
