UNITED STATES ENVIRONMENTAL PROTECTION AGENCY

MAY 19 2004

Mr. Dean C. Allred  
Aqua Tri  
P.O. Box 17148  
Irvine, CA 92623-7148

Subject: All Clear Chlorinating Tablets  
EPA Registration Number 9215-6  
Application Date: 4/19/04  
Receipt Date: 4/23/04

Dear Mr. Allred:

The following amendment(s), submitted in connection with registration under the Federal Insecticide, Fungicide, and Rodenticide Act (FIFRA), as amended, is acceptable with the conditions listed below:

- To revise the Basic and Alternate Formulations (see CSFs dated 4/19/04)
- To update your label

**Conditions**

Revise the label as follow:

In the "Ingredient" statement delete "and related isocyanurates".

**General Comments**

The revised basic confidential statement of formula (CSF) dated 4/19/04 supersedes all previously accepted basic formulas.

A stamped copy of the accepted labeling is enclosed. Submit three (3) copies of your final printed labeling before distributing or selling the product bearing the revised labeling.

# ALL CLEAR CHLORINATING TABLETS

FOR USE IN TRICHLORO-S-TRIAZINETRIONE FEEDING DEVICES

Controls bacteria and algae

(Approximate weight of each tablet 0.5 oz.)

ACTIVE INGREDIENT:

Trichloro-s-triazinetrione and related isocyanurates.....

98.3%

INERT INGREDIENTS.....

1.7%

100.0%

Available Chlorine ..... 90%

KEEP OUT OF REACH OF CHILDREN

**DANGER:**

SEE OTHER PRECAUTIONS AND FIRST AID ON BACK PANEL

NET WT 50 LBS

EPA Est. No. 9215-CA-1

EPA Reg. No. 9215-6

Repackaged by AQUA TRI 17872 Mitchell, Irvine, CA 92614-6034

Additional container sizes: 2 lb - 6 lb - 10 lb - 16 lb - 25 lb  
50 lb - 300 lb

**FIRST AID**

**If swallowed:** Call a poison control center immediately for treatment advice. Have the person sip a glass of water if able to swallow. Do not induce vomiting unless told to do so by a poison control center or a doctor. Do not give anything by mouth to an unconscious person.

**If in eyes:** Hold eyelids open and rinse slowly with water for 15 to 20 minutes. Remove contact lenses if present after 5 minutes then continue rinsing eye. Call poison control center or doctor for treatment advice.

**If on skin or clothing:** Take off contaminated clothing. Rinse skin immediately with plenty of water for 15 to 20 minutes. Call a poison control center or doctor.

**If inhaled:** Move person to fresh air. If person is not breathing call 911 or an ambulance, then give artificial respiration, preferably mouth-to-mouth if possible. Call a poison control center or doctor for further treatment advice.

**NOTE TO PHYSICIAN:** Probable mucosal damage may contraindicate the use of gastric lavage.

Have the product container or label with you when calling a poison control center or doctor, or going for treatment. You may also contact the poison control Hot Line at 1-800-222-1222 for emergency medical treatment advice.

**PRECAUTIONARY STATEMENTS - Hazard to humans and domestic animals**

**DANGER:**

**CORROSIVE. CAUSES IRREVERSIBLE EYE DAMAGE AND SKIN BURNS. MAY BE FATAL IF ABSORBED THROUGH SKIN. MAY BE FATAL IF INHALED. DO NOT BREATHE DUST OR SPRAY MISTS. IRRITATING TO NOSE AND THROAT. HARMFUL IF SWALLOWED.** Do not get in eyes, on skin, or on clothing. Wear goggles or face shield, protective clothing and rubber gloves when handling this product. Wash thoroughly with soap and water after handling and before eating, drinking or using tobacco. Remove contaminated clothing and wash before reuse.

**ENVIRONMENTAL HAZARD -** This product is toxic to fish and aquatic organisms. Do not discharge effluent containing this product into lakes, streams, ponds, estuaries, oceans or other waters unless in accordance with the requirements of a National Pollutant Discharge Elimination System (NPDES) permit and the permitting authority has been notified in writing prior to discharge. Do not discharge effluent containing this product to sewer systems without previously notifying the local sewage treatment plant authority. For guidance contact your State Water Board or Regional Office of the EPA.

**PHYSICAL OR CHEMICAL HAZARD - STRONG OXIDIZING AGENT. WILL BURN WITH THE EVOLUTION OF CHLORINE AND EQUALLY TOXIC GASES. CONTACT WITH WATER SLOWLY LIBERATES IRRITATING AND HAZARDOUS CHLORINE-CONTAINING GASES. DECOMPOSES AT 460°F.**

to 480°F. WITH LIBERATION OF HARMFUL GASES.

Mix only with water. Use clean, dry utensils. Do not add this product to any dispensing device containing remnants of any other product. Such use may cause a violent reaction leading to fire or explosion. Contamination with moisture, organic matter, or other chemicals may start a chemical reaction with generation of heat, liberation of hazardous gases, and possible generation of fire and explosion. In case of fire, contamination or decomposition, do not reseal container. If possible isolate container in open air or well ventilated area. Flood with large volumes of water, if necessary.

Do not add this product directly into a swimming pool or spa as discoloration of plastic liner or painted pool surface may occur. Do not place in the skimmer. Do not mix with other chemicals.

**DIRECTIONS FOR USE -** It is a violation of Federal law to use this product in a manner inconsistent with its labelling. When starting up a new pool, superchlorinate to satisfy chlorine demand and to establish a chlorine residual of 1.0 ppm to 1.5 ppm available chlorine. To accomplish this, add 2 oz. All Clear Swimming Pool Sanitizer per 1,000 gallons of pool water. The next morning add All Clear Cyanuric Acid to stabilize the pool according to directions given on the label. All Clear Chlorinating Tablets are designed for use in Trichloro-s-triazinetrione devices. Follow the manufacturer's directions for refilling and adjusting the feed rate for the proper available chlorine level. Test pool water frequently with a suitable test kit and maintain a chlorine residual of 1.0 ppm to 1.5 ppm minimum range of residual chlorine. If the residual chlorine is above 1.5 ppm, adjust the cartridge to the next smaller number. An increase in weather temperature, bather load or water temperature will cause your pool to use more chlorine. You should increase the feed rate accordingly. If the cartridge is at the maximum setting, the pump time should be increased to compensate for the increased usage. When the tablets are nearly exhausted, superchlorinate and refill when the chlorine residual of the pool reaches 1.5 ppm. Keep the pH between 7.2 and 7.6 as determined by a suitable test kit. Reentry into treated swimming pools/spas is prohibited above levels of 3 ppm of chlorine.

**STORAGE AND DISPOSAL:**

Do not contaminate water, food, or feed by storage or disposal. Store in original container, tightly closed away from heat or open flame. Store in a cool, dry, well ventilated place. Keep container off wet floors. **PESTICIDE DISPOSAL:** Do not put spilled product, filled or partially filled containers in the trash. Dispose of waste material according to label use directions otherwise call 1-800-CLEANUP for guidance from your local solid waste agency. **CONTAINER DISPOSAL:** Triple rinse with water to dissolve all material before discarding container. Do not reuse container. Place in trash or recycle.

The full "Environmental Hazards Statement" is required only on sizes over 50 lbs
