FILE COPY

Subject: All Clear Chlorinating Tablets
EPA Registration No. 9215-6
Application Dated: January 27, 2010
Receipt Dated: February 3, 2010

Dear Mr. Allred:

This acknowledges receipt of your notification, submitted under the provision of PR Notice 98-10, FIFRA section 3(c)9.

Proposed Notification:

- To change the company name to "Aqui Tri®"

General Comments:

Based on a review of the material submitted, the following comment applies:

The notification application is acceptable and a copy has been inserted in your file for future reference.

Should you have any questions or comments concerning this letter, please contact me at (703) 308-6345.

Sincerely,

Wanda Y. Henson
Acting Product Manager (32)
Regulatory Management Branch II
Antimicrobials Division (7510P)

United States Environmental Protection Agency Washington, DC 20460

Registration Amendment Other

OPP Identifier Number

Application for Pesticide - Section I

1. Company/Product Number 9215-6
2. EPA Product Manager Tom Luminello
3. Proposed Classification [X] None [] Restricted
4. Company/Product (Name) All Clear Chlorinating Tablets PM# 32
5. Name and Address of Applicant (Include ZIP Code) Aqua Tri 17872 Mitchell N., Suite 250 Irvine, Ca. 92614-6034
6. Expedited Review. In accordance with FIFRA Section 3(c)(3) (b)(i), my product is similar or identical in composition and labeling to: EPA Reg. No. Product Name

Section - II

Amendment - Explain below. Resubmission in response to Agency letter dated. Notification - Explain below. Final printed labels in response to Agency letter dated. "Me Too" Application. Other - Explain below.

Explanation: Use additional page(s) if necessary. (For section I and Section II.) To change the name Aqua Tri to a ® registered name.

Section - III

1. Material This Product Will Be Packaged In: Child-Resistant Packaging [X] Yes [] No. Unit Packaging [] Yes [] No. Water Soluble Packaging [] Yes [X] No. 2. Type of Container [X] Plastic [] Metal [] Glass [] Paper [] Other (Specify) FIBER DRUM
3. Location of Net Contents Information [X] Label [] Container. 4. Size(s) Retail Container 2, 6, 10, 16, 25, 35, 50 & 300 LB. 5. Location of Label Directions [X] On Label [] On Labeling accompanying product. 6. Manner in Which Label is Affixed to Product [X] Lithograph Paper glued [] Stenciled [X] Other Silk Screened

Section - IV

1. Contact Point (Complete items directly below for identification of individual to be contacted, if necessary, to process this application.) Name Dean C. Alfred Title President Telephone No. (Include Area Code) (949) 474-7707
Certification I certify that the statements I have made on this form and all attachments thereto are true, accurate and complete. I acknowledge that any knowingly false or misleading statement may be punishable by fine or imprisonment or both under applicable law.
2. Signature [Handwritten Signature] 3. Title President
4. Typed Name Dean C. Alfred 5. Date Jan 27, 2010
6. Date Application Received (Stamped)

CERTIFICATION STATEMENT
CHILD RESISTANT PACKAGING "CRP"

ALL CLEAR[®] Chlorinating Tablets

E. P. A. REG. NO. 09215-6

REGISTRANT: AQUA TRI
P.O. BOX 17148
IRVINE, CA 92623-7148

January 27, 2010

"I certify that the packaging used for this product meets with the standards of 40 CFR 157.32, including the revised standards in 16 CFR 1700.15 (b), when tested by the revised testing procedures in 16 CFR 1700.20, as published in 60 FR 37710 (July 21, 1995)"

Dean C. Allred, President

There are two packages for this product;

An ASTM Type 1-B cap from REXAM which is a 63 mm and a 110 mm polypropylene Squeeze-Lok CRC closure which is a reclosable continuous thread closure requiring localized squeeze force while turning, the force must be applied to a designated location on the closure skirt. The containers are blow molded 7.5" X 3.25" OD, 8" X 5" X 5" square, 9.5" X 6.5" X 6.5" square, and 11" X 7" X 7" square polyethylene bottles with continuous thread finish.

An ASTM Type 1-D 3.5, 5, and 6.5 gallon tapered side wall, plastic, open head pail, with a plastic, continuously threaded pail lid. The lid contains a lever closure. The package is opened by holding down the lever on the pail lid while unscrewing the lid counter clockwise and lifting it off the pail. When closed the lever fits into a groove on the inside of the pail neck so the lid can not be unscrewed. The M&M LIFELATCH closure is used. Both pail and closure is a matched unit from M&M Industries.

Repackaged by AQUA TRI® 17872 Mitchell, Irvine, CA 92614-6034

The full environmental hazard statement is required only on sizes 50 pounds and over.
2, 6, 10, 16, 25, 35, 50, and 300 pounds.

FIRST AID

If swallowed: Call a poison control center immediately for treatment advice. Have the person sip a glass of water if able to swallow. Do not induce vomiting unless told to do so by a poison control center or a doctor. Do not give anything by mouth to an unconscious person.

If in eyes: Hold eyelids open and rinse slowly with water for 15 to 20 minutes. Remove contact lenses if present after 5 minutes then continue rinsing eye. Call poison control center or doctor for treatment advice.

If on skin or clothing: Take off contaminated clothing. Rinse skin immediately with plenty of water for 15 to 20 minutes. Call a poison control center or doctor.

If inhaled: Move person to fresh air. If person is not breathing call 911 or an ambulance, then give artificial respiration, preferably mouth-to-mouth if possible. Call a poison control center or doctor for further treatment advice.

NOTE TO PHYSICIAN: Probable mucosal damage may contraindicate the use of gastric lavage. **Have the product container or label with you when calling a poison control center or doctor, or going for treatment.** You may also contact the poison control Hot Line at 1-800-222-1222 for emergency medical treatment advice.

PRECAUTIONARY STATEMENTS - Hazard to humans and domestic animals.

DANGER:

CORROSIVE. CAUSES IRREVERSIBLE EYE DAMAGE AND SKIN BURNS. MAY BE FATAL IF ABSORBED THROUGH SKIN. MAY BE FATAL IF INHALED. DO NOT BREATHE DUST OR SPRAY MISTS. IRRITATING TO NOSE AND THROAT. HARMFUL IF SWALLOWED. Do not get in eyes, on skin, or on clothing. Wear goggles or face shield, protective clothing and rubber gloves when handling this product. Wash thoroughly with soap and water after handling and before eating, drinking or using tobacco. Remove contaminated clothing and wash before reuse.

ENVIRONMENTAL HAZARDS: This pesticide is toxic to fish and aquatic organisms. Do not discharge effluent containing this product into lakes, streams, ponds, estuaries, oceans or other waters unless in accordance with the requirements of a National Pollutant Discharge Elimination System (NPDES) permit and the permitting authority has been notified in writing prior to discharge. Do not discharge effluent containing this product to sewer systems without previously notifying the local sewage treatment plant authority. For guidance contact your State Water Board or Regional Office of the EPA.

PHYSICAL OR CHEMICAL HAZARD - STRONG OXIDIZING AGENT. WILL BURN WITH THE EVOLUTION OF CHLORINE AND EQUALLY TOXIC GASES. CONTACT WITH WATER SLOWLY LIBERATES IRRITATING AND HAZARDOUS CHLORINE-CONTAINING GASES. DECOMPOSES AT 460°F. to 480°F. WITH LIBERATION OF HARMFUL GASES.

Mix only with water. Use clean, dry utensils. **Do not add this product to any dispensing device containing remnants of any other**

product. Such use may cause a violent reaction leading to fire or explosion. Contamination with moisture, organic matter, or other chemicals may start a chemical reaction with generation of heat, liberation of hazardous gases, and possible generation of fire and explosion. In case of fire, contamination or decomposition, do not reseal container. If possible isolate container in open air or well ventilated area. Flood with large volumes of water, if necessary. **Do not add this product directly into a swimming pool or spa as discoloration of plastic liner or painted pool surface may occur. Do not place in the skimmer. Do not mix with other chemicals.** **DIRECTIONS FOR USE - It is a violation of Federal law to use this product in a manner inconsistent with its labelling.** When starting up a new pool, superchlorinate to satisfy chlorine demand and to establish a chlorine residual of 1.0 ppm to 1.5 ppm available chlorine. To accomplish this, add 2 oz. All Clear[®] Swimming Pool Sanitizer per 1,000 gallons of pool water. The next morning, add All Clear[®] Cyanuric Acid to stabilize the pool according to directions given on the label. All Clear[®] Chlorinating Tablets are designed for use in Trichloro-s-triazinetriene devices. Follow the manufacturer's directions for refilling and adjusting the feed rate for the proper available chlorine level. Test pool water frequently with a suitable test kit and maintain a chlorine residual of 1.0 ppm to 1.5 ppm minimum range of residual chlorine. If the residual chlorine is above 1.5 ppm, adjust the cartridge to the next smaller number. An increase in weather temperature, bather load or water temperature will cause your pool to use more chlorine. You should increase the feed rate accordingly. If the cartridge is at the maximum setting, the pump time should be increased to compensate for the increased usage. When the tablets are nearly exhausted, superchlorinate and refill when the chlorine residual of the pool reaches 1.5 ppm. Keep the pH between 7.2 and 7.6 as determined by a suitable test kit. Reentry into treated swimming pools/spas is prohibited above levels of 3 ppm chlorine.

STORAGE AND DISPOSAL:

Do not contaminate water, food, or feed by storage or disposal.

PESTICIDE STORAGE: Store in original container, tightly closed away from heat or open flame. Store in a cool, dry, well ventilated place. Keep container off wet floors.

PESTICIDE DISPOSAL: Do not put spilled product, filled or partially filled containers in the trash. Dispose of waste material according to label use directions otherwise call 1-800-CLEANUP for guidance from your local solid waste agency.

CONTAINER HANDLING: Nonrefillable container. Do not reuse or refill this container. Triple rinse container promptly after emptying. Triple rinse as follows: Empty the remaining contents into application equipment or mix tank. Fill the container 1/4 full with water and recap. Shake for ten seconds. Pour rinsate into application equipment or mix tank or store rinsate for later use or disposal. Drain for 10 seconds after the flow begins to drip. Repeat this procedure two more times. **Offer for recycling if available, or place in trash.**
