REGISTRANT:

AQUA TRI®

P.O. BOX 17148

IRVINE, CA 92623-7148

Janaury 28, 2010

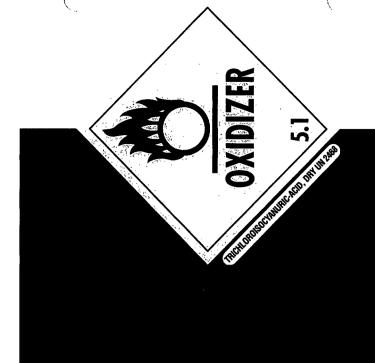

"I certify that the packaging used for this product meets with the standards of 40 CFR 157.32, including the revised standards in 16 CFR 1700.15 (b), when tested by the revised testing procedures in 16 CFR 1700.20, as published in 60 FR 37710 (July 21, 1995)"

Dean C. Allred, President

There is one package type for this product;

An ASTM Type 1-D .5, 1, 3.5, and 5 gallon tapered side wall, plastic, open head pail, with a plastic, continuously threaded pail lid. The lid contains a lever closure. The package is opened by holding down the lever on the pail lid while unscrewing the lid counter clockwise and lifting it off the pail. When closed the lever fits into a groove on the inside of the pail neck so the lid can not be unscrewed. The M&M LIFELATCH closure is used. Both pail and closure is a matched unit from M&M Industries.

CHLORINATING TABLETS controls bacteria and algae for USE IN TRICHLORO-S-TRIAZINETRIONE FEEDING DEVICES

ACTIVE INGREDIENT: Trichloro - s-triazinetrione . INERT INGREDIENTS

KEEP OUT OF REACH OF CHILDREN Available Chlorine

DANGER:

SEE OTHER PRECAUTIONS AND FIRST AID ON SIDE PANEL

NET WT 35 LBS

FIRST AID

If swallowed: Call a poison control center immediately for treatment advice. Have the person sip a glass of water if able to swallow. Do not induce vomiting unless told to do so by a poison control center or a doctor. Do not give anything by mouth to an unconscious person.

If in eyes: Hold eyelids open and rinse slowly with water for 15 to 20 minutes. Remove contact lenses if present after 5 minutes then continue rinsing eye. Call poison control center or doctor for treatment advice.

If on skin or clothing: Take off contaminated clothing. Rinse skin immediately with plenty of water for 15 to 20 minutes. Call a poison control center or doctor. If inhaled: Move person to fresh air. If person is not breathing call 911 or an ambulance, then give artificial respiration, preferably mouth-to-mouth if possible. Call a poison control center or doctor for further treatment advice.

NOTE TO PHYSICIAN: Probable mucosal damage may contraindicate the use of gastric lavage.

Have the product container or label with you when calling a poison control center or doctor, orgoing for trealment. You may also contact the poison control Hot Line at 1-800-222-1222 for emergency medical treatment advice.

PRECAUTIONARY STATEMENTS-Hazard to humans and domestic animals. DANGER:

CORROSIVE. CAUSES IRREVERSIBLE EYE DAMAGE AND SKIN BURNS. MAY BE FATAL IF ABSORBED THROUGH SKIN. MAYBE FATAL IF INHALED. DO NOT BREATH DUST OR SPRAY MISTS. IRRITATING TO NOSE AND THROAT. HARMFUL IF SWALLOWED. Do not get in eyes, on skin, or on clothing. Wear goggles or face shield and rubber gloves when handling. Avoid breathing dust or furnes. Wash thoroughly with soap and water after handling and before eating, drinking or using tobacco. Remove contaminated clothing and wash before reuse.

ENVIRONMENTAL HAZARDS: This pesticide is toxic to fish and aquatic organisms.

PHYSICAL OR CHEMICAL HAZARD - STRONG OXIDIZING AGENT. WILL BURN WITH THE EVOLUTION OF CHLORINE AND EOUALLY TOXIC GASES. CONTACT WITH WATER SLOWLY LIBERATES IRRITATING AND HAZARDOUS CHLORINE-CONTAINING GASES. DECOMPOSES AT 460°F. to 480°F. WITH LIBERATION OF HARMFUL GASES. Mix only with water. Use clean, dry utensils. Do not add this product to any dispensing device containing remnants of any other product. Such use may cause a violent reaction leading to fire or explosion. Contamination with moisture, organic matter, or other chemicals may start a chemical reaction with generation of heat, liberation of hazardous gases, and possible generation of fire and explosion. In case of fire, contamination or decomposition, do not reseal container. If possible isolate container in open air or well ventilated area. Flood with large volumes of water, if necessary.

Do not add this product directly into a swimming pool or spa as discoloration of plastic liner or painted pool surface may occur. Do not place in the skimmer. Do not mix with other chemicals.

DIRECTIONS FOR USE - It is a violation of Federal law to use this product in a manner inconsistent with its labelling. When starting up a new pool, superchlorinate to satisfy chlorine demand and to establish a chlorine residual of 1.0 ppm to 1.5 ppm available chlorine. To accomplish this, add 2 oz. FRESH &; CLEAN, Swimming Pool Sanitizer per 1,000 gallons of pool water. The next morning add RESH & CLEAN, Cyanuric Acid to stabilize the pool according to directions given on the label FRESH & CLEAN, Chlorinating Tablets are designed for use in Trichloro-s-triazinetrione devices. Follow the manufacturer's directions for refilling and adjusting the feed rate for the proper available chloring level. Test pool water frequently with a suitable test kit and maintain a chlorine residual of 1.0 to 1.5 ppm minimum range of residual chlorine. If the residual chlorine is above 1.5 ppm, adjust the cartridge to the next smaller number. An increase in weather temperature, bather load or water temperature will cause your pool to use more chlorine. You should increase the feed rate accordingly. If the cartridge is at the maximum setting, the pump time should be increased to compensate for the increased usage. When the tablets are nearly exhausted, superchlorinate and refill when the chlorine residual of the pool reaches 1.5 ppm. Keep the pH between 7.2 and 7.6 as determined by a suitable test kit. Reentry into treated swimming pools/spa is prohibited above levels of 3 ppm of chlorine.

STORAGE AND DISPOSAL:

Do not contaminate water, food, or feed by storage or disposal.

PESTICIDE STORAGE: Store in original container, tightly closed away from heat or open flame. Store in a cool, dry, well ventilated place. Keep container off wet floors

PESTICIDE DISPOSAL: Do not put spilled product, filled or partially filled containers in the trash. Dispose of waste material according to label use directions otherwise call 1-800-CLEANUP for guidance from your local solid waste agency.

CONTAINER HANDLING: Nonrefillable container. Do not reuse or refill this container. Triple rinse container promptly after emptying. Triple rinse as follows: Empty the remaining contents into application equipment or mix tank. Fill the container 1/4 full with water and recap. Shake for ten seconds. Pour rinsate into application equipment or a mix tank or store rinsate for later use or disposal. Drain for 10 seconds after the flow begins to drip. Repeat this procedure two more times. Ofter for recycling if available, or place in trash.
