Subject: Notification dated: November 23, 2009
All Clear 3" Tablets Jumbo Chlorinating Tablets
EPA Registration 9215-7

Dear Mr. Allred:

This acknowledges receipt of your Notification submitted in accordance with the provisions of PR Notice 98-10 under the Federal Insecticide, Fungicide, and Rodenticide Act (FIFRA) section 3(c)9.

Proposed Notification

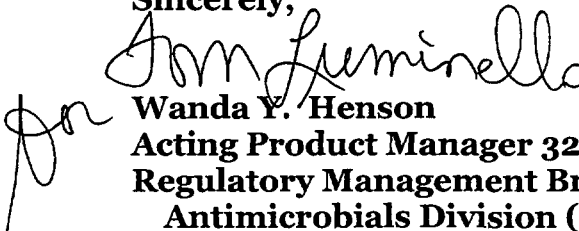

- Change primary brand name to All Clear® 3" Tablets Jumbo Chlorinating Tablets. Change All Clear brand name from a trademarked logo to a registered logo.

General Comments

- Based on a review of the material submitted, the proposed Notification is acceptable. Your Certification with Respect to Child Resistant Packaging is being reviewed separately.

Should you have any questions or comments concerning this letter, please contact Tom Luminello at (703) 308-8075.

Sincerely,

Wanda Y. Henson
Acting Product Manager 32
Regulatory Management Branch II
Antimicrobials Division (7510P)

Please read instructions on reverse before printing form.

CERTIFICATION STATEMENT
CHILD RESISTANT PACKAGING "CRP"

ALL CLEAR® 3" TABLETS JUMBO CHLORINATING TABLETS

E.P. A. REG. NO. 09215-7

REGISTRANT: AQUA TRI
P.O. BOX 17148
IRVINE, CA 92623-7148

November 23, 2009

"I certify that the packaging used for this product meets with the standards of 40 CFR 157.32, including the revised standards in 16 CFR 1700.15 (b), when tested by the revised testing procedures in 16 CFR 1700.20, as published in 60 FR 37710 (July 21, 1995)"

Dean C. Allred, President

There are two packages for this product;

An ASTM Type 1-B cap from REXAM which is a 110 mm polypropylene Squeeze-Lok CRC closure which is a reclosable continuous thread closure requiring localized squeeze force while turning, the force must be applied to a designated location on the closure skirt. The container is a blow molded 8" X 5" X 5" square, 9.5" X 6.5" X 6.5" square, and 11" X 7" X 7" square polyethylene bottle with continuous thread finish.

An ASTM Type 1-D 3.5, 5, and 6.5 gallon tapered side wall, plastic, open head pail, with a plastic, continuously threaded pail lid. The lid contains a lever closure. The package is opened by holding down the lever on the pail lid while unscrewing the lid counter clockwise and lifting it off the pail. When closed the lever fits into a groove on the inside of the pail neck so the lid can not be unscrewed. The M&M LIFELATCH closure is used. Both pail and closure is a matched unit from M&M Industries.

EPA Est. No. 9215-CA-1

EPA Reg. No. 9215-7

Repackaged by AQUA TRIP 17872 Mitchell, Irvine, CA 92614-6934

The full environmental hazard statement is required only on sizes 50 pounds and over.
4.375, 8.75, 13.12, 25, 35, 50, and 300 pounds.

FIRST AID

If swallowed: Call a poison control center immediately for treatment advice. Have the person sip a glass of water if able to swallow. Do not induce vomiting unless told to do so by a poison control center or a doctor. Do not give anything by mouth to an unconscious person.

If in eyes: Hold eyelids open and rinse slowly with water for 15 to 20 minutes. Remove contact lenses if present after 5 minutes then continue rinsing eye. Call poison control center or doctor for treatment advice.

If on skin or clothing: Take off contaminated clothing. Rinse skin immediately with plenty of water for 15 to 20 minutes. Call a poison control center or doctor.

If inhaled: Move person to fresh air. If person is not breathing call 911 or an ambulance, then give artificial respiration, preferably mouth-to-mouth if possible. Call a poison control center or doctor for further treatment advice.

NOTE TO PHYSICIAN: Probable mucosal damage may contraindicate the use of gastric lavage.

Have the product container or label with you when calling a poison control center or doctor, or going for treatment. You may also contact the poison control Hot Line at 1-800-222-1222 for emergency medical treatment advice.

PRECAUTIONARY STATEMENTS - Hazard to Humans and domestic animals:

DANGER:

CORROSIVE. CAUSES IRREVERSIBLE EYE DAMAGE. CAUSES BURNS TO SKIN. IRRITATING TO NOSE AND THROAT. MAY BE FATAL IF SWALLOWED. Do not get in eyes, on skin or on clothing. Wear goggles or face shield and rubber gloves when handling. Avoid breathing dust or fumes. Remove and wash contaminated clothing before reuse.

ENVIRONMENTAL HAZARDS: This pesticide is toxic to fish and aquatic organisms. Do not discharge effluent containing this product into lakes, streams, ponds, estuaries, oceans or other waters unless in accordance with the requirements of a National Pollutant Discharge Elimination System (NPDES) permit and the permitting authority has been notified in writing prior to discharge. Do not discharge effluent containing this product to sewer systems without previously notifying the local sewage treatment plant authority. For guidance contact your State Water Board or Regional Office of the EPA.

PHYSICAL OR CHEMICAL HAZARD - STRONG OXIDIZING AGENT. WILL ACCELERATE THE EVOLUTION OF CHLORINE AND EQUALLY TOXIC GASES. CONTACT WITH WATER SLOWLY LIBERATES IRRITATING AND HAZARDOUS CHLORINE-CONTAINING GASES. DECOMPOSES AT 460°F. to 480°F. WITH LIBERATION OF HARMFUL GASES. Mix only with water. Use clean, dry utensils. Do not add this product to any dispensing device containing remnants of any other product. Such use may cause a violent reaction leading to

fire or explosion. Contamination with moisture, organic matter, or other chemicals may start a chemical reaction with generation of heat, liberation of hazardous gases, and possible generation of fire and explosion. In case of fire, contamination or decomposition, do not reuse container. If possible, isolate container from open air or well ventilated area. Flood with large volumes of water, if necessary. Do not add this product directly into a swimming pool or spa as discoloration of plastic liner or painted pool surface may occur. Do not place in the skimmer. Do not mix with other chemicals. **DIRECTIONS FOR USE - It is a violation of Federal law to use this product in a manner inconsistent with its labelling.** When starting up a new pool, superchlorinate to satisfy chloring demand and to establish a chlorine residual of 1.0 ppm to 1.5 ppm available chlorine. To accomplish this, add 2 oz. ALL-CLEAR Swimming Pool Sanitizer per 1,000 gallons of pool water. The next morning, add ALL-CLEAR Cyanuric Acid to stabilize the pool according to directions given on the label. Test pool water frequently with a suitable test kit and maintain a chlorine residual of 1.0 ppm to 1.5 ppm at all times (as determined by daily or more frequent use of a chlorine test kit). Immerse one ALL-CLEAR 3" Tablet (or more until residual is obtained) for each 5,000 to 10,000 gallons of pool water by means of feeder or float (but never directly into the pool, as discoloration of the pool liner or paint could occur). Variables such as water temperature, water flow rate, filter cycles, filter loads and methods of application will affect the dissolving speed of the tablet and therefore the rate of flow of chlorine solution into the pool. During summer and peak bather loads, superchlorinate at least twice monthly as directed above. Keep the pH between 7.2 and 7.6 as determined by a suitable test kit.

STORAGE AND DISPOSAL:

Do not contaminate water, food, or feed by storage or disposal.

PESTICIDE STORAGE: Store in original container, tightly closed away from heat or open flame. Store in a cool, dry, well ventilated place. Keep container off wet floors.

PESTICIDE DISPOSAL: Do not put spilled product, filled or partially filled containers in the trash. Dispose of waste material according to label use directions otherwise call 1-800-CLEANUP for guidance from your local solid waste agency.

CONTAINER HANDLING: Nonrefillable container. Do not reuse or refill this container. Triple rinse container promptly after emptying. Triple rinse as follows: Empty the remaining contents into application equipment or mix tank. Fill the container 1/4 full with water and recap. Shake for ten seconds. Pour rinsate into application equipment or a mix tank or store rinsate for later use or disposal. Drain for 10 seconds after the flow begins to drip. Repeat this procedure two more times. Offer for recycling if available, or place in trash.
