<p>US ENVIRONMENTAL PROTECTION AGENCY OFFICE OF PESTICIDES PROGRAMS REGISTRATION DIVISION (TS-767) WASHINGTON, DC 20460</p> <p><b>NOTICE OF PESTICIDE:</b> <input checked="" type="checkbox"/> REGISTRATION <input type="checkbox"/> REREGISTRATION <i>(Under the Federal Insecticide, Fungicide, and Rodenticide Act, as amended)</i></p>	<p>EPA REGISTRATION NO. 9215-8</p>	<p>DATE OF ISSUANCE SEP 27 1994</p>
<p>TERM OF ISSUANCE</p>		
<p>NAME OF PESTICIDE PRODUCT All Clear Granular Swimming Pool &amp; Spa Sanitizer</p>		
<p>NAME AND ADDRESS OF REGISTRANT (Include ZIP code)</p> <p>Aqua Tri 17872 Mitchell Irvine, CA 92714</p>		
<p>NOTE: Changes in labeling formula differing in substance from that accepted in connection with this registration must be submitted to and accepted by the Registration Division prior to use of the label in commerce. In any correspondence on this product always refer to the above U.S. EPA registration number.</p>		
<p>On the basis of information furnished by the registrant, the above named pesticide is hereby Registered/Reregistered under the Federal Insecticide, Fungicide, and Rodenticide Act.</p> <p>A copy of the labeling accepted in connection with this Registration/Reregistration is returned herewith.</p> <p>Registration is in no way to be construed as an indorsement or approval of this product by this Agency. In order to protect health and the environment, the Administrator, on his motion, may at any time suspend or cancel the registration of a pesticide in accordance with the Act. The acceptance of any name in connection with the registration of a product under this Act is not to be construed as giving the registrant a right to exclusive use of the name or to its use if it has been covered by others.</p> <p>Based on your response to the Reregistration Eligibility Document, EPA has reregistered the above named product subject to the comments recorded in the succeeding paragraph. This action is taken under the authority of section 4(g)(2)(C) of the Federal Insecticide, Fungicide, and Rodenticide Act, as amended. Reregistration under this section does not eliminate the need for continual reassessment of pesticides. EPA may require submission of data at any time to maintain the registration of your product.</p> <p>Make the following labeling changes before you release the product for shipment:</p> <ol style="list-style-type: none"> <li>1. Refer to the enclosed Attachment A for the necessary revisions to the Precautionary Statements for the subject product.</li> <li>2. Under Environmental Hazards, revise "This pesticide is toxic to fish" to read "This pesticide is toxic to fish and other aquatic organisms".</li> </ol> <p>A stamped copy of the product label is enclosed for your records.</p> <p><input type="checkbox"/> ATTACHMENT IS APPLICABLE</p> <p>SIGNATURE OF APPROVING OFFICIAL _____ DATE _____</p>		

Submit one copy of the final printed labeling before releasing the product in channels of trade with the revised labeling.

If these conditions are not complied with, the registration will be subject to cancellation in accordance with FIFRA sec. 6(e). Your release for shipment of the product constitutes acceptance of these conditions.

Ruth G. Douglas  
Product Manager 32  
Antimicrobial Program Branch  
Registration Division (7505C)

Enclosure

Attachment A - Batch 26 Products

Labeling:

1. The signal word is "Danger".
2. The Precautionary Statements should read:

"Corrosive: Cause irreversible eye damage. May be fatal if inhaled. Harmful if swallowed or absorbed through skin. Do not get in eyes, on skin or on clothing. Do not breathe dust, vapor or spray mist. Wear goggles, face shield or safety glasses. Wash thoroughly with soap and water after handling. Remove contaminated clothing and wash before reuse".

3. The Statements of Practical Treatment should read:

"If in eyes: Hold eyelids open and flush with a steady, gentle stream of water for 15 minutes. Get medical attention".

"If inhaled: Remove victim to fresh air. If not breathing, give artificial respiration preferably mouth-to-mouth. Get medical attention".

"If on Skin: Wash with plenty of soap and water. Get medical attention if irritation persists".

"If swallowed: Drink promptly large quantities of water. Avoid alcohol. Note to physician: Probable mucosal damage may contraindicate the use of gastric lavage. Get medical attention".

ACCEPTED  
WITH COMMENTS  
By EPA Letter Dated:

SEP 27 1994

Under the Federal Insecticide,  
Fungicide, and Rodenticide Act as  
amended, this pesticide  
is registered under EPA Reg. No.

9215-8

# ALL CLEAR

## GRANULAR SWIMMING POOL & SPA SANITIZER CONCENTRATED FOR SPAS AND POOLS

ACTIVE INGREDIENT:	
Sodium dichloro-s-triazinetrione .....	.97%
INERT INGREDIENTS .....	0.3%
	<u>100.0%</u>

Available Chlorine ..... 62%

KEEP OUT OF REACH OF CHILDREN

### DANGER:

SEE STATEMENT OF PRACTICAL TREATMENT (FIRST AID)  
AND OTHER PRECAUTIONS ON SIDE PANEL

NET WT. 2 LBS

EPA Reg. No. 9215-8

SOS

**STATEMENT OF PRACTICAL TREATMENT (FIRST AID):** IF SWALLOWED, drink large amounts of water. DO NOT induce vomiting. Avoid alcohol. Call a physician or poison control center immediately. Never give anything by mouth to an unconscious person. IF ON SKIN, immediately brush off excess chemical and flush with cold water and soap for at least 15 minutes. Remove contaminated clothing. Wash clothing before reuse. If irritation persists, call a physician. IF IN EYES, flush with cold water for at least 15 minutes. Get medical attention. IF INHALED, remove person to fresh air. Call a physician.

**NOTE TO PHYSICIAN:** Probable mucosal damage may contraindicate the use of gastric lavage.

**PRECAUTIONARY STATEMENTS-Hazard to Humans and Domestic Animals.**

**DANGER:** HIGHLY CORROSIVE. CAUSES IRREVERSIBLE EYE DAMAGE. CAUSES BURNS TO SKIN. IRRITATING TO NOSE AND THROAT. MAY BE FATAL IF SWALLOWED. Do not get in eyes, on skin or on clothing. Wear goggles or face shield and rubber gloves when handling. Avoid breathing dust or fumes. Remove and wash contaminated clothing before reuse.

**ENVIRONMENTAL HAZARD-** This product is hazardous to fish. Do not discharge effluent containing this product into lakes, streams, ponds, estuaries, oceans or other waters unless in accordance with the requirements of a National Pollutant Discharge Elimination System (NPDES) permit and the permitting authority has been notified in writing prior to discharge. Do not discharge effluent containing this product to sewer systems without previously notifying the local sewage treatment plant authority. For guidance contact your State Water Board or Regional Office of the EPA.

**PHYSICAL OR CHEMICAL HAZARD-STRONG OXIDIZING AGENT. WILL BURN WITH THE EVOLUTION OF CHLORINE AND EQUALLY TOXIC GASES. CONTACT WITH WATER SLOWLY LIBERATES IRRITATING AND HAZARDOUS CHLORINE CONTAINING GASES. DECOMPOSES AT 460°F. to 480°F. WITH LIBERATION OF HARMFUL GASES.** Mix only with water. Use clean dry utensils. Do not add this product to any dispensing device containing remnants of any other product. Such use may cause a violent reaction leading to fire or explosion. Contamination with moisture, organic matter, or other chemicals may start a chemical reaction with generation of heat, liberation of hazardous gases, and possible generation of fire and explosion. In case of fire, contamination or decomposition, do not reseal container. If possible isolate container in open air or well ventilated area. Flood with large volumes of water, if necessary.

**DIRECTIONS FOR USE:** It is a violation of Federal law to use this product in a manner inconsistent with its labeling.

**FOR CONTROL OF BACTERIA AND ALGAE (OUTDOORS) IN SPAS:**

1. Before bathing, test water pH, chlorine residual and alkalinity using a suitable test kit. Adjust chlorine residual to 3 ppm. Reentry into treated swimming pools/spas is prohibited above levels of 3 ppm of chlorine. After bathing superchlorinate to 6 ppm (1 level tablespoon per 500 gallons of water). Use a chlorine stabilizer, especially outdoors, to prolong chlorine residual. Maintain pH of water between 7.2 and 7.6 and total alkalinity between 125 and 175 ppm.
2. One tenth oz. (1/2 tsp.) per 500 gal. of water gives 1 ppm and 1 level tbsp. gives 6 ppm. of chlorine. To use, broadcast granules into water with jets running.
3. With 4 bathers in a 500 gal. spa, a 2 ppm chlorine residual can drop below the minimum 1 ppm in 15 to 20 minutes. Less water or more bathers will accelerate loss. Test often and keep chlorine residual above 1 ppm.
4. Weekly, superchlorinate water to 5 or 6 ppm (see 2 above). Do not bathe until chlorine drops to 3 ppm. Draining and cleaning of spa is recommended whenever the water becomes difficult to manage or chlorine stabilizer goes over 100 ppm, as

measured with a suitable cyanuric acid test kit. Avoid use of products such as body lotions that consume chlorine.

**FOR CONTROL OF BACTERIA AND ALGAE IN SWIMMING POOLS:**

Scatter directly over surface of pool. Each ounce of product will provide approximately 0.40 ppm of available chlorine in 10,000 gallons of water. **START UP-** in a clean pool with no visible algae, bring chlorine residual to 1 to 1.5 ppm as follows:

1. Add 3 oz. of ALL-CLEAR Sanitizer for each 10,000 gallons of water.
2. Test for chlorine residual, using a suitable test kit.
3. If chlorine residual is below 1 ppm, continue to add ALL-CLEAR Sanitizer. The day after your chlorine residual reaches 1 to 1.5 ppm, use ALL-CLEAR Cyanuric Acid according to label directions to stabilize your pool. Adjust pH to the ideal range of 7.2 to 7.6.

**REGULAR CARE -** Add 3 oz. of ALL-CLEAR Sanitizer for each 10,000 gallons every other day, or as needed to maintain your chlorine residual from 1 to 1.5 ppm. Frequency of application will depend on the number of people swimming, water temperature and other conditions.

**ADDITIONAL POOL CARE RECOMMENDATIONS-** Maintain pH in the ideal range of 7.2 to 7.6. Test for pH at least once a week with a suitable test kit.

**SUPERCHLORINATION-** Keep your water sparkling clean by adding 11 oz. ALL-CLEAR Sanitizer per 10,000 gallons of water, at least once every two weeks. Superchlorinate each week during excessive heat, when bathing loads are high, or when there is "chlorine" like smell to the water. Before swimming, allow the pool to stand until the chlorine residual drops to 3 ppm. Reentry into treated swimming pools/spa is prohibited above levels of 3 ppm of chlorine. If algae appears, treat your pool with ALL-CLEAR Algae Kill following label directions.

**HOW TO CALCULATE POOL CAPACITY (Dimensions in feet)** Rectangular-Average Depth x Average Length x Average Width x 7.5. Circular-Diameter x Diameter x Average Depth x 5.9. Oval With Straight Sides-Full Width x Full Length x Average Depth x 6.7.

**STORAGE AND DISPOSAL:** Do not contaminate water, food, or feed by storage or disposal.

**STORAGE-** Store in original container and keep container tightly closed away from heat or open flame. Store in a cool, dry, well ventilated place. Do not allow water to get into container. Keep container off wet floors. **PRODUCT DISPOSAL-** Pesticide wastes are acutely hazardous. Improper disposal of excess pesticide, spray mixture, or rinsate is a violation of Federal Law. If these wastes cannot be disposed of by use according to label instructions, contact your State Pesticide or Environmental Control Agency, or the Hazardous Waste representative at the nearest EPA Regional Office for guidance.

**CONTAINER DISPOSAL-** Triple rinse (or equivalent). Then offer for recycling or reconditioning, or puncture and dispose of in a sanitary landfill, or incineration, or, if allowed by state and local authorities, by burning. If burned, stay out of smoke.

**DRUM WITH LINER-** Completely empty liner by shaking and tapping sides and bottom to loosen clinging particles. Empty residue into application equipment. Then dispose of liner in a sanitary landfill or by incineration if allowed by State and local authorities. If drum is contaminated and cannot be reused, dispose of in the same manner. **PRECAUTION-CHEMICAL SHOULD NOT COME IN DIRECT CONTACT WITH SURFACE OF VINYL LINER, FIBERGLASS, ACRYLIC, COLORED PLASTER OR PAINTED POOLS AND SPAS. DANGER - DO NOT POUR IN SKIMMER! DO NOT MIX WITH OTHER CHEMICALS.**
