Subject: All Clear Granular Swimming Pool & Spa Sanitizer  
EPA Registration No. 9215-8  
Application Dated: January 27, 2010  
Receipt Dated: February 3, 2010

Dear Mr. Allred:

This acknowledges receipt of your notification, submitted under the provision of PR Notice 98-10, FIFRA section 3(c)9.

**Proposed Notification:**

- Company name change from "Aqua Tri" to "Aqua Tri®"

**General Comments:**

Based on a review of the material submitted, the following comments apply:

The notification application is acceptable and a copy has been inserted into your file for future reference.

Should you have any questions or comments concerning this letter, please contact me at [Henson.Wanda@epa.gov](mailto:Henson.Wanda@epa.gov) or call (703) 308-6345.

Sincerely,

Wanda Henson

Registration Amendment Other

OPP Identifier Number

Application for Pesticide - Section I

1. Company/Product Number 9215-8
2. EPA Product Manager Tom Luminello
3. Proposed Classification None Restricted
4. Company/Product (Name) All Clear Granular Swimming Pool and Spa Sanitizer
5. Name and Address of Applicant (Include ZIP Code) Aqua Tri 17872 Mitchell N., Suite 250 Irvine, Ca. 92614-6034
6. Expedited Review. In accordance with FIFRA Section 3(c)(3) (b)(i), my product is similar or identical in composition and labeling to: EPA Reg. No. Product Name

Section - II

Amendment - Explain below. Resubmission in response to Agency letter dated. Notification - Explain below. Final printed labels in response to Agency letter dated. "Me Too" Application. Other - Explain below.

Explanation: Use additional page(s) if necessary. (For section I and Section II.) To change the name Aqua Tri to a ® registered name.

Section - III

1. Material This Product Will Be Packaged In: Child-Resistant Packaging, Unit Packaging, Water Soluble Packaging, 2. Type of Container, 3. Location of Net Contents Information, 4. Size(s) Retail Container, 5. Location of Label Directions, 6. Manner in Which Label is Affixed to Product

Section - IV

1. Contact Point (Complete items directly below for identification of individual to be contacted, if necessary, to process this application.) Name Dean C. Allred, Title President, Telephone No: (949) 474-7707
Certification: I certify that the statements I have made on this form and all attachments thereto are true, accurate and complete...
2. Signature, 3. Title President, 4. Typed Name Dean C. Allred, 5. Date Jan 27, 2010, 6. Date Application Received (Stamped)

**NET WT 50 LBS**

EPA Est. No. 9215-CA-1

EPA Reg. No. 9215-8

Repackaged by AQUA TRI<sup>®</sup> 17872 Mitchell, Irvine, CA 92614-6034

The full environmental hazard statement is required only on sizes 50 pounds and over.  
1, 2, 5, 10, 16, 25, 35, 50, and 300 pounds.

**FIRST AID**

**If swallowed:** Call a poison control center immediately for treatment advice. Have the person sip a glass of water if able to swallow. Do not induce vomiting unless told to do so by a poison control center or a doctor. Do not give anything by mouth to an unconscious person.

**If in eyes:** Hold eyelids open and rinse slowly with water for 15 to 20 minutes. Remove contact lenses if present after 5 minutes then continue rinsing eye. Call poison control center or doctor for treatment advice.

**If on skin or clothing:** Take off contaminated clothing. Rinse skin immediately with plenty of water for 15 to 20 minutes. Call a poison control center or doctor.

**If inhaled:** Move person to fresh air. If person is not breathing call 911 or an ambulance, then give artificial respiration, preferably mouth-to-mouth if possible. Call a poison control center or doctor for further treatment advice.

**NOTE TO PHYSICIAN:** Probable mucosal damage may contraindicate the use of gastric lavage.

**Have the product container or label with you when calling a poison control center or doctor, or going for treatment.** You may also contact the poison control Hot Line at 1-800-222-1222 for emergency medical treatment advice.

**PRECAUTIONARY STATEMENTS - Hazard to humans and domestic animals.**

**DANGER:**

**CORROSIVE:** CAUSES IRREVERSIBLE EYE DAMAGE. MAY BE FATAL IF INHALED. HARMFUL IF SWALLOWED OR ABSORBED THROUGH SKIN. DO NOT GET IN EYES, ON SKIN OR ON CLOTHING. DO NOT BREATHE DUST, VAPOR OR SPRAY MIST. Wear goggles, face shield or safety glasses. Wash thoroughly with soap and water after handling. Remove contaminated clothing and wash before reuse.

**ENVIRONMENTAL HAZARDS** - This pesticide is toxic to fish and other aquatic organisms. Do not discharge effluent containing this product into lakes, streams, ponds, estuaries, oceans or other waters unless in accordance with the requirements of a National Pollutant Discharge Elimination System (NPDES) permit and the permitting authority has been notified in writing prior to discharge. Do not discharge effluent containing this product to sewer systems without previously notifying the local sewage treatment plant authority. For guidance contact your State Water Board or Regional Office of the EPA.

**PHYSICAL OR CHEMICAL HAZARD** - STRONG OXIDIZING AGENT. WILL BURN WITH THE EVOLUTION OF CHLORINE AND EQUALLY TOXIC GASES. CONTACT WITH WATER SLOWLY LIBERATES IRRITATING AND HAZARDOUS CHLORINE CONTAINING GASES. DECOMPOSES AT 460°F. to 480°F. WITH LIBERATION OF HARMFUL GASES. Mix only with water. Use clean dry utensils. Do not add this product to any dispensing device containing remnants of any other product. Such use may cause a violent reaction leading to fire or explosion. Contamination with moisture, organic matter, or other chemicals may start a chemical reaction with generation of heat, liberation of hazardous gases, and possible generation of fire and explosion. In case of fire, contamination or decomposition, do not reseal container. If possible isolate container in open air or well ventilated area. Flood with large volumes of water, if necessary. Do not allow chemical to come in direct contact with the liner or painted surface of pool as discoloration can occur. Do not pour into the skimmer. Do not mix with other chemicals.

**DIRECTIONS FOR USE:** It is a violation of Federal law to use this product in a manner inconsistent with its labeling.

**FOR CONTROL OF BACTERIA AND ALGAE (OUTDOORS) IN SPAS:**

1. Before bathing, test water pH, chlorine residual and alkalinity using a suitable

test kit. Adjust chlorine residual to 3 ppm. Reentry into treated swimming pools/spas is prohibited above levels of 3 ppm of chlorine. After bathing superchlorinate to 6 ppm (1 level tablespoon per 500 gallons of water). Use a chlorine stabilizer, especially outdoors, to prolong chlorine residual. Maintain pH of water between 7.2 and 7.6 and total alkalinity between 125 and 175 ppm.

2. One tenth oz. (1/2 tsp.) per 500 gal. of water gives 1 ppm and 1 level tbsp. gives 6 ppm. of chlorine. To use, broadcast granules into water with jets running.

3. With 4 bathers in a 500 gal. spa, a 2 ppm chlorine residual can drop below the minimum 1 ppm in 15 to 20 minutes. Less water or more bathers will accelerate loss. Test often and keep chlorine residual above 1 ppm.

4. Weekly, superchlorinate water to 5 or 6 ppm (see 2 above). Do not bathe until chlorine drops to 3 ppm. Draining and cleaning of spa is recommended whenever the water becomes difficult to manage or chlorine stabilizer goes over 100 ppm, as measured with a suitable cyanuric acid test kit. Avoid use of products such as body lotions that consume chlorine.

**FOR CONTROL OF BACTERIA AND ALGAE IN SWIMMING POOLS:** Scatter directly over surface of pool. Each ounce of product will provide approximately 0.40 ppm of available chlorine in 10,000 gallons of water.

**STARTUP** - In a clean pool with no visible algae, bring chlorine residual to 1 to 1.5 ppm as follows:

1. Add 3 oz. of ALL CLEAR<sub>®</sub> Sanitizer for each 10,000 gallons of water.

2. Test for chlorine residual, using a suitable test kit.

3. If chlorine residual is below 1 ppm, continue to add ALL CLEAR<sub>®</sub> Sanitizer. The day after your chlorine residual reaches 1 to 1.5 ppm, use ALL CLEAR<sub>®</sub> Cyanuric Acid according to label directions to stabilize your pool. Adjust pH to the ideal range of 7.2 to 7.6.

**REGULAR CARE** - Add 3 oz. of ALL CLEAR<sub>®</sub> Sanitizer for each 10,000 gallons every other day, or as needed to maintain your chlorine residual from 1 to 1.5 ppm. Frequency of application will depend on the number of people swimming, water temperature and other conditions.

**ADDITIONAL POOL CARE RECOMMENDATIONS** - Maintain pH in the ideal range of 7.2 to 7.6. Test for pH at least once a week with a suitable test kit.

**SUPERCHLORINATION** - Keep your water sparkling clean by adding 11 oz. ALL CLEAR<sub>®</sub> Sanitizer per 10,000 gallons of water, at least once every two weeks. Superchlorinate each week during excessive heat, when bathing loads are high, or when there is "chlorine" like smell to the water. Before swimming, allow the pool to stand until the chlorine residual drops to 3 ppm. Reentry into treated swimming pools/spa is prohibited above levels of 3 ppm of chlorine. If algae appears, treat your pool with ALL CLEAR<sub>®</sub> Algae Kill following label directions.

**STORAGE AND DISPOSAL:**

**Do not contaminate water, food, or feed by storage or disposal.**

**PESTICIDE STORAGE:** Store in original container, tightly closed away from heat or open flame. Store in a cool, dry, well ventilated place. Keep container off wet floors.

**PESTICIDE DISPOSAL:** Do not put spilled product, filled or partially filled containers in the trash. Dispose of waste material according to label use directions otherwise call 1-800-CLEANUP for guidance from your local solid waste agency.

**CONTAINER HANDLING:** Nonrefillable container. Do not reuse or refill this container. Triple rinse container promptly after emptying. Triple rinse as follows: Empty the remaining contents into application equipment or mix tank. Fill the container 1/4 full with water and recap. Shake for ten seconds. Pour rinsate into application equipment or mix tank or store rinsate for later use or disposal. Drain for 10 seconds after the flow begins to drip. Repeat this procedure two more times. Offer for recycling if available, or place in trash.
