Subject: Notification Application Per PR Notice 98-10
ALL CLEAR 3 Granular Swimming Pool & Spa Sanitizer
EPA Registration No. 9215-9
Application Date: May 23, 2006
Receipt Date: June 1, 2006

Dear Mr. Allred:

This acknowledges receipt of your notification, submitted under the provision of PR Notice 98-10, FIFRA section 3(c)9.

Proposed Notification:

- Alternate Brand Name (All Clear Granular Swimming Pool & Spa Sanitizer 56)

General Comment:

Based on a review of the material submitted, the following comment apply:

The notifications are acceptable. Copies have been inserted in your file for future reference.

Should you have any questions or comments concerning this letter, please contact me at (703) 308-6422, or Stacey Grigsby at (703) 305-6440.

Sincerely,

A handwritten signature in black ink, appearing to read "Stacey Grigsby" with a large flourish at the end.

Notification, EPA Reg. No 9215-9

ALL CLEAR Granular Swimming Pool & Spa Sanitizer 56

This notification is consistent with the provisions of PR Notice 98-10 and EPA regulations at 40 CFR 152.46, and no other changes have been made to the labeling or the confidential statement of formula of this product. I understand that it is a violation of 18 U.S.C. sec.1001 to willfully make any false statement to EPA. I further understand that if this notification is not consistent with the terms of PR notice98-10 and 40 CFR 152.46, this product may be in violation of FIFRA and I may be subject to enforcement action and penalties under sections 12 and 14 of FIFRA.

Dean C. Allred, President

ALL CLEAR™

GRANULAR SWIMMING POOL & SPA SANITIZER 56

TO CONTROL BACTERIA AND ALGAE IN POOLS AND SPAS

ACTIVE INGREDIENT:

Sodium dichloro-s-triazinetrione dihydrate 99%

OTHER INGREDIENTS: 1%

TOTAL 100%

Available Chlorine 55%

KEEP OUT OF REACH OF CHILDREN

DANGER

SEE OTHER PRECAUTIONS AND FIRST AID ON BACK PANEL

NET WT 50 LBS

EPA Est. No. 9215-CA-1

EPA Reg. No. 9215-9

Repackaged by AQUA TRI 17872 Mitchell, Irvine, CA 92614-6034

The full environmental hazard statement is required only on sizes over 50 lbs.

2 lb, 5 lb, 10 lb, 16 lb, 25 lb, 50 lb, 300 lb

FIRST AID

If swallowed: Call a poison control center immediately for treatment advice. Have the person sip a glass of water if able to swallow. Do not induce vomiting unless told to do so by a poison control center or a doctor. Do not give anything by mouth to an unconscious person.

If in eyes: Hold eyelids open and rinse slowly with water for 15 to 20 minutes. Remove contact lenses if present after 5 minutes then continue rinsing eye. Call poison control center or doctor for treatment advice.

If on skin or clothing: Take off contaminated clothing. Rinse skin immediately with plenty of water for 15 to 20 minutes. Call a poison control center or doctor for treatment advice.

If inhaled: Move person to fresh air. If person is not breathing call 911 or an ambulance, then give artificial respiration, preferably mouth-to-mouth if possible. Call a poison control center or doctor for further treatment advice.

NOTE TO PHYSICIAN: Probable mucosal damage may contraindicate the use of gastric lavage.

Have the product container or label with you when calling a poison control center or doctor, or going for treatment. You may also contact the poison control Hot Line at 1-800-222-1222 for emergency medical treatment advice.

PRECAUTIONARY STATEMENTS- Hazard to humans and domestic animals

DANGER:HIGHLY CORROSIVE. Causes irreversible eye damage and skin burns. Harmful if swallowed, irritating to nose and throat. Do not get in eyes, on skin or clothing. Wear protective eyewear (goggles or safety glasses). Wear protective clothing and rubber gloves when handling this product. Avoid breathing dust and fumes. Wash thoroughly with soap and water after handling. Remove contaminated clothing and wash clothing before reuse.

ENVIRONMENTAL HAZARDS:This pesticide is toxic to fish and aquatic organisms. Do not discharge effluent containing this product into lakes, streams, ponds, estuaries, oceans or other waters unless in accordance with the requirements of a National Pollutant Discharge Elimination System (NPDES) permit and the permitting authority has been notified in writing prior to discharge. Do not discharge effluent containing this product to sewer systems without previously notifying the local sewage treatment plant authority. For guidance contact your State Water Board or Regional Office of the EPA.

PHYSICAL OR CHEMICAL HAZARDS:Strong oxidizing agent. Contact with water slowly liberates irritating and hazardous chlorine containing gases. Decomposes at temperatures above 464 F with liberation of harmful gases. When ignited, will burn with evolution of chlorine and equally toxic gases. Never add water to this product. Always add product to large quantities of water. Use clean, dry utensils. Do not add this product to any dispensing device containing remnants of any other product. Such use may cause a violent reaction leading to fire or explosion. Contamination with moisture, organic material, or other chemicals may start a chemical reaction with generation of heat, liberation of hazardous gases and possible fire and explosion. Do not allow chemical to come in direct contact with the liner or painted surface of the pool as discoloration can occur. Do not pour into the pool skimmer. Do not mix with other chemicals.

IN CASE OF FIRE OR SMOKE:Call the fire department. Do not attempt to extinguish the fire with out self contained breathing apparatus (SCBA). Do not let the fire burn. Isolate the burning material, if possible to the open air or well ventilated area and flood with large quantities of water. Do not use ABC or other dry chemical extinguishers since there is the potential for a violent reaction.

IN CASE OF CONTAMINATION OR DECOMPOSITION:Do not reseal container. Follow disposal instructions on label.

DIRECTIONS FOR USE: It is a violation of Federal law to use this product in a manner inconsistent with its labeling.

FOR CONTROL OF BACTERIA AND ALGAE (OUTDOORS) IN SPAS:

1. Before bathing, test water pH, chlorine residual and alkalinity using a suitable test kit. Adjust chlorine residual to 3 ppm. Reentry into treated swimming pools/spas is prohibited above levels of 3 ppm of chlorine. After bathing superchlorinate to 6 ppm (1 1/2) tablespoon per 450 gallons of water. Maintain pH of water between 7.2 and 7.6 and total alkalinity between 125 and 175 ppm.

2. One tenth oz. (8/10 tsp.) per 450 gal. of water gives 1 ppm of chlorine. To use, broadcast granules into water with jets running.

3. With 4 bathers in a 500 gal. spa, a 2 ppm chlorine residual can drop below the minimum 1 ppm in 15 to 20 minutes. Less water or more bathers will accelerate loss. Test often and keep chlorine residual above 1 ppm.

4. Weekly, superchlorinate water to 5 or 6 ppm (see 2 above). Do not bathe until chlorine drops to 3 ppm. Draining and cleaning of spa is recommended whenever the water becomes difficult to manage or chlorine stabilizer goes over 100 ppm, as measured with a suitable cyanuric acid test kit. Avoid use of products such as body lotions that consume chlorine.

FOR CONTROL OF BACTERIA AND ALGAE IN SWIMMING POOLS:

Scatter directly over surface of pool. Each ounce of product will provide approximately 0.35 ppm of available chlorine in 10,000 gallons of water.

START-UP: In a clean pool with no visible algae, bring chlorine residual to 1 to 1.5 ppm as follows:

1. Add 3 oz. of ALL CLEAR Sanitizer 56 for each 10,000 gallons of water.
2. Test for chlorine residual, using a suitable test kit.

3. If chlorine residual is below 1 ppm, continue to add ALL CLEAR Sanitizer 56. Adjust pH to the ideal range of 7.2 to 7.6.

REGULAR CARE - Add 3 oz. of ALL CLEAR Sanitizer 56 for each 10,000 gallons of water every other day, or as needed to maintain your chlorine residual from 1 to 1.5 ppm. Frequency of application will depend on the number of people swimming, water temperature and other conditions.

ADDITIONAL POOL CARE RECOMMENDATIONS- Maintain pH in the ideal range of 7.2 to 7.6. Test for pH at least once a week with a suitable test kit.

SUPERCHLORINATION- Keep your water sparkling clean by adding 12-13 oz. ALL CLEAR Sanitizer 56 per 10,000 gallons of water, at least once every two weeks. Superchlorinate each week during excessive heat, when bathing loads are high, or when there is a "chlorine" like smell to the water. Before swimming, allow the pool to stand until the chlorine residual drops to 3 ppm. Reentry into treated swimming pools/spa is prohibited above levels of 3 ppm of chlorine. If algae appears, treat your pool with ALL-CLEAR Algae Kill following label directions.

STORAGE AND DISPOSAL: Do not contaminate water, food, or feed by storage or disposal. Store in original container, tightly closed away from heat or open flame. Store in a cool, dry, well ventilated place. Keep container off wet floors.

PESTICIDE DISPOSAL: Do not put spilled product, filled or partially filled containers in the trash. Contact with incompatible material could cause a reaction and fire. Do not transport wet or damp material. Dispose of waste material according to label use directions otherwise call 1-800-CLEANUP for guidance from your local solid waste agency.

CONTAINER DISPOSAL: Triple rinse with water to dissolve all material before discarding container. Do not reuse container. Place in trash or recycle.
