

GUARDIAN POOL CHLORINE

is a highly refined formulation of iso-cyanurates and pH adjusters. This stable formulation is uniquely suitable for swimming pool water because it does not result in excess harmful cyanurate build-up, even after continued use!

DIRECTIONS

FOR USE IN POOLS CONDITIONED WITH ISOCYANURIC ACID

Initial Dosage:

Add 4 ounces by weight per 10,000 gallons of water.

Regular Dosage:

Add 2 ounces by weight per 10,000 gallons daily, or as needed to maintain 0.6 to 1.0ppm residual available chlorine as determined by test kit.

ASK YOUR DEALER ABOUT THE COMPLETE LINE OF GUARDIAN "POOL PERFECTION" CHEMICALS!

GUARDIAN CHEMICAL CO. No. Hollywood, Calif. 91605

IMPORTANT!

Add chlorine to streamer while pump is running. Keep pH of water between 7.4 and 7.6.

Superchlorination:

Add 7.5 ounces by weight per 10,000 gallons of water every two weeks.

Liquid sodium hypochlorite may be used for superchlorination by adding 1/2 gallon of a 10% solution per 10,000 gallons of water.

WARNING: STRONG OXIDIZING AGENT

Store in cool, dark place and keep cap closed when not in use.

Avoid getting powder in eyes. Avoid breathing dust.

Do not re-use empty container. Wash thoroughly with water and discard in a safe place.

POISON

CAUTION -- POISON. Harmful if taken internally. Keep away from children. Avoid getting dry powder in eyes. If taken internally: Feed gruel or cooked cereal, followed by doses of olive oil or cooking oil. Call physician. Externally: Flood area with cold water. If in eyes, call physician.

GUARDIAN

G-85 Pool Chlorine Tablets

WARNING

Keep out of reach of children

See side panel for other cautions.

Active Ingredients:

Trichloro-s-Trizinetriene 100%

NET WEIGHT

*Add tablets daily or as needed
at the rate of 1 lb. per 100,000
gallons of water to provide
1.0 ppm available chlorine.*

GUARDIAN G-85 Tablet Pool Chlorine is specially formulated to be used in automatic chlorinators. Be sure to follow instructions on chlorinator before using.

IMPORTANT

The United States Department of Public Health recommends a chlorine residual of .6 to 1.0 parts per million in pool water. Use test kit and adjust feeding ratio accordingly. For best results, maintain pH between 7.4 and 7.8. If you have not used this type of chlorine before, be sure to condition the pool with Guardian Conditioner or other product containing cyanuric acid.
