

**ACCEPTED**

**MAR 22 1969**

UNDER THE FEDERAL INSECTICIDE  
FUNGICIDE AND RODENTICIDE ACT  
EPA REG. NO. 9237-6

GUARDIAN G-85 Tablet Pool Chlorine is specially formulated to be used in automatic chlorinators. Be sure to follow instructions on chlorinator before using.

**IMPORTANT**

The United States Department of Public Health recommends a chlorine residual of .6 to 1.0 parts per million in pool water. Use test kit and adjust feeding ratio accordingly. For best results, maintain pH between 7.4 and 7.8. If you have not used this type of chlorine before, be sure to condition the pool with Guardian Conditioner or other product containing cyanuric acid.
