Ingredients include ammonium sulfate, diammonium phosphate, muriate of potash, iron sulfate monohydrate and calcium carbonate.

**ACCEPTED**  
 FEB - 9 1999  
 Under the Federal Insecticide, Fungicide, and Rodenticide Act, this pesticide is considered for the pesticide registered under EPA Reg. No. 9240-8

### PRECAUTIONARY STATEMENTS HAZARD TO HUMANS AND DOMESTIC ANIMALS

#### CAUTION

Keep out of reach of children. Harmful if swallowed, inhaled, or absorbed through skin. Avoid breathing of dust and contact with skin, eyes, or clothing. Causes moderate eye injury. Remove contaminated clothing and wash clothing before reuse. Wash thoroughly with soap and water after handling.

#### ENVIRONMENTAL HAZARDS

Do not apply directly to water. Do not contaminate water when disposing of equipment, dishwashers or rinsate.

### DIRECTIONS FOR USE

It is a violation of Federal law to use this product in a manner inconsistent with its labeling.

Not for use on plants being grown for sale or other commercial use, or for commercial seed production, or for research purposes. For use on plants intended for aesthetic purposes or climatic modification and being grown in ornamental gardens or parks, or on golf courses or lawns.

**USE PRECAUTION:** Will stain paint or concrete. Remove spillage immediately by sweeping or washing off sidewalks, driveways or other concrete or painted surfaces.

Use anytime moss is a problem. Repeat if needed. Rake lawn lightly to remove leaves and dead grass. Mow lawn to expose moss and to allow fertilizer to enter soil readily. Apply with spreader at recommended rates. **WATER LAWN IMMEDIATELY AFTER APPLICATION.**

### NORMAL FEEDING

For normal control of moss, apply at the rate of four pounds per 1,000 square feet. A 20 pound bag covers 5,000 square feet, 40 pound bag covers 10,000 square feet, properly applied. This application will provide turf with 1/2 pound of nitrogen, 1/3 pound of iron, plus phosphorous and potash per 1,000 square feet essential to this early spring treatment.

### STORAGE AND DISPOSAL

Do not contaminate water, food or feed by storage or disposal.  
**STORAGE:** Store in a cool, dry place out of the reach of children.  
**PESTICIDE DISPOSAL:** Securely wrap original container in several layers of newspaper and discard in trash.  
**CONTAINER DISPOSAL:** Do not reuse bag. Discard bag in trash.

### SUGGESTED SPREADER SETTINGS\*

SPREADER	NORMAL FEEDING
Best® Lawn Spreader #50	7
BEST® Broadcast Spreader #60	5
Scotts (All Models)	5-1/2
Wards #1083	5-1/2
Sears #1916	6
Ortho #3000	5-1/2
Ortho Whirlybird	20 lbs./ 5,000 sq. ft.

**NOTE:** Broadcast spreaders such as the Whirlybird are dependent on rate of walking and turning speed of the broadcast unit. Carefully calculate the area to be fertilized and make certain the proper number of pounds is applied to the area.

\*Settings for spreaders in new condition. Spreaders will vary and must be checked for accuracy.

**NOTICE:** Seller warrants that this product consists of the ingredients specified and is reasonably fit for use as directed on the label. No one is authorized to make any other warranty, guarantee, or direction concerning this product. Because the time, place, rate of application, and other conditions of use are beyond Seller's control, Seller's liability from the handling, storage and use of this product is limited to replacement of product or refund of purchase price.

## HEAVY MOSS INFESTATIONS

For heavy infestations of moss, apply at the rate of eight pounds per 1,000 square feet. A 20 pound bag covers 2,500 square feet, 40 pound bag covers 5,000 square feet, properly applied. This application will provide turf with 1 pound of nitrogen, 2/3 pounds of iron, plus phosphorous and potash per 1,000 square feet.
