- EFFECTIVELY CONTROLS ALGAE AND SLIME
- HELPS ELIMINATE AND PREVENT ODORS
- USE WITH ALL TYPES OF POOLS AND EQUIPMENT
- HIGHLY CONCENTRATED
- WORKS BEST AT pH LEVELS OVER 7.0

DIRECTIONS FOR USE:

Use 1 gallon of Pool Trol Liquid Algaecide per 30,000 gallons of pool water as an initial treatment when pool is filled. After this, use 1 quart per 30,000 gallons every 4 days. In hot, sunny weather, this amount should be used every 2 days.

When pool is drained and refilled, repeat initial dose. Simply add Pool Trol Algaecide to the pool at various points on the surface of the water, or add through the filter

For smaller pools, use 1 pint to ^{3,750}~~4,000~~ gallons of water or 1 cup to ¹⁸⁷⁵~~2,000~~ gallons as an initial treatment. 1 cubic foot is about 7½ gals.

Use Pool Trol Algaecide to sanitize walls, runways, locker rooms, etc. in a solution of 2 ounces of algaecide to 4 gallons of water.

Avoid contact with skin and eyes. In case of contact, flush with plenty of water. If irritation persists, get medical attention.
